Dear Mr. Belmont:

I have viewed with concern the delay which occurred in the Domestic Intelligence Division in the handling of a letter dated September 14, 1954, from the Miami Division pertaining to a request made by Mr. George A. Brautigam, State Attorney, Eleventh Judicial Circuit of Florida, Miami, Florida, for the identity of any informants who could be released to testify in the state prosecution of [perjury. I have noted that this letter was received in the Internal Security Section on September 22, 1954, and no reply was sent to the Miami Division until September 30, 1954. I realize that considerable research was necessary before this reply could be sent; nevertheless, it is obvious that this matter could have been handled more promptly than it was by the Domestie -Intelligence Division.

Accordingly, I shall expect you to take proper measures to insure that in the future matters of this nature are thoroughly and promptly handled by personnel under your supervision in order that there will be no further instance of such delay attributable to the Demestic Intelligence Division.

Mr. L. V. Boardman Parsons Rosen mm_oT S1200 SUB BCT : Winterrowd b6 Tele, Room SECURITY MATTER/- C b7C Holloman FBI File 100-3#3466 Gandy SYNOPSIS: George A. Brautigam, State Attorney, 11th Judicial Circuit of Florida, Hiami, Florida, by letter dated October 4, 1954, advised had testified before a Dade County Grand Jury and denied present or past Communist Party (CP) membership. The letter indicated that our Miami Office had been requested to volunteer the identity of any informants who could be released to testify in the state prosecution of _____ for perjury. As an enclosure to the letter, there was attached a letter to the State Attorney's office identified dated September 19, 1954, from ___ , in which as a Communist and submitted the names of eight individuals who he believed might be in a position to advise regarding! CP membership. Brautigam's letter also listed three additional persons who allegedly had information regarding GP membership. The letter requested that the Bureau advise whether any of the individuals could-be used as witnesses concerning membership. The letter indicated that none of the individuals who might be potential witnesses had been contacted by Brautigam's office and would not be contacted until this matter had been cleared with the Bureau. Brautigam's request of our liam loffice was called to the Burean's aftention by Miami letter dated September 14. 1954, which requested Burgeau authority to make available to Brautigan the identity of persons who are not active security informants. Bureau letter dated September 30, 1954, to Viani denied authority to make available the identity of the potential witnesses to Brautigam, but indicated that the Bureau would consider furnishing him with public source material. Concerning the Miami request to the Bureau and the Bureau's reply, the Director asked "Mhy did it take us so long to advise Miami? H." The Miami letter was received by the Records Section at the Bureau on September 18, 1954, It was received in the Internal Security Section on September 22, 1954, and handled by the supervisor by letter to Miami dated Friday, September 24, 1954. The joutgoing letter was returned by Mr. Boardman's office to Mr. Belmont's office where it was stamped in at 4:55 p.m., Prings, September 24, 1954. On Monday, September 27, 1954, it was returned to the Internal Security Section from Mr. Belmunt's office so that consideration might be diven to whether or not it would be feasible before a Federal Grand Jury. After careful consideration

and study was made of all the facts involved, it was determined that calling before a Federal Grand Jury would not be feasible. This conclusion was reached on September 29 and the original letter to Miami was redated for September 30 and sent back for approval on September 29, 1954. The Bureau's files have been reviewed concerning the three individuals mentioned in Brautigam's letter and the eight individuals in the enclosure to that letter suggested as possible witnesses in a state perjury trial. The files reveal that none of these individuals are currently Bureau informants and the Bureau would interpose no objection to their use as witnesses in a state prosecution.

RECOMMENDATIONS:

(1) With respect to the Director's inquiry, in view of the fact that the Miami letter was originally handled by the supervisor in the Internal Security Section within two days after its receipt in that Section, and, in view of the fact that it was necessary after the question had been raised concerning whether or not should be taken before a Federal Grand Jury to give this matter appropriate consideration and study, it is recommended that no administrative action is necessary with respect to the handling of this piece of mail. You may be assured, however, that every effort is being made by the Domestic Intelligence Division to handle all mail promptly.

If you approve, copies of the Bureau's acknowledgment to Mr. Brautigam will be forwarded to the Miami Office instructing the SAC to personally contact Brautigam and advise him of the confidential nature of the Bureau's files, in view of which the Bureau is not in a position to approve or disapprove any contact with or use by Brautigam as witnesses any of the individuals listed in the letter to the Bureau or in its enclosure. The SAC will be authorized to furnish Brautigam on a confidential basis, with the distinct understanding that such information shall not be attributed to the Bureau, all public source material pertinent to Hirsch's CP membership which is available in the Miami Office or which may be made available to Miami by either the Charlotte, Norfolk, or Washington Field Offices. It is noted that in Bulet dated September 30, 1954, copies of which were designated to each of the above-mentioned offices, those offices were instructed to advise the Bureau and Miami Office of any public source material available concerning Hirsch.

(4) If you approve, there is attached hereto a teletype to the Miami Office with copies for Charlotte, Washington Field, and Norfolk, instructing the last-named offices to immediately advise the Bureau and Miami Office of the results of their file reviews with respect to public source material concerning

DETAILS:

By letter dated October 4, 1954, George A. Brautigam, State Attorney, 11th Judicial Circuit of Florida, Miami, Florida, advised that had testified before a Dade County Grand Jury that he is not and never was a member of the Communist Party (CP). Brautigam indicated that he had information indicating that had been members of the CP at Chapel Hill, Durham, North Carolina. Brautigam indicated that consideration was being given to the prosecution of in state court for perjury.

He advised that several weeks ago he had requested our Miami Office to assist in the state's prosecution by advising of the identity of confidential informants who might be released for use be as witnesses in a perjury trial of _______ He stated that he had be not received an answer from our Miami Office.

In his letter, Brautigam advised that he had been informed that the following individuals are alleged to have information concerning _______, Michigan State College; _______, who is connected with the _______ in New

As an enclosure to his letter, Brautigam furnished the b70 Bureau with a copy of a letter dated September 19 (1954) from , North Carolina, in which Long stated he knew to be a Communist and submitted the names of eight individuals described as "exposed Reds," who were known to and to

North Carolina.

York City;

Brautigam's letter requested that the Bureau advise whether or not any of the individuals mentioned above may be contacted concerning the CP membership of _______. He indicated that none of these individuals have as yet been contacted as he wished to clear with the Bureau to be sure that none of them were of value to the Bureau.

Brautigam's request of our Miami Office was called to the Bureau's attention by Miami letter dated September 14, 1954. This was answered by Bulet dated September 30, 1954, indicating that the Bureau would consider furnishing Brautigam on a confidential basis public source data concerning It indicated that the Bureau could not authorize the dissemination of any information from our files nor would the Bureau authorize divulging the names of any confidential informants who might be of value as witnesses. With respect to Kiami's letter and the Bureau's reply, the Director inquired "Why did it take us so long to advise Miami? H." The Miami letter dated September 14, 1954, was received at the Bureau and stamped into the Records Section on September 16, 1954. It was forwarded to the Internal Security Section and stamped into that Section on September 22 1954. This letter was handled immediately by the supervisor to whom it was assigned and a letter was prepared, addressed to Miami, dated September 24, 1954. It was approved by the Internal Security Sections and routed to Mr. Boardman's office on September 24, 1954. On the same date, it was returned to Mr. Belmont's office, by Mr. Boardman's office, where it was stamped in at 4:55 p.m., Friday, September 24, On Monday, September 27, 1954, it was routed to the Internal Security Section. It was returned so that consideration might be

given to whether or not it would be feasible to call __before a Federal Grand Jury. This matter was given careful and detailed study and based thereon it was determined that calling _____ before a Federal Grand Jury would not be advisable. This decision was reached on September 29, 1954, and the original letter prepared by the Internal Security Section was redated for September 30, 1954, and returned to Mr. Boardman's office for approval on September 29, 1954. Mr. Alan H. Belmont Federal Bureau of Investigation Washington. D. C.

Dear Mr. Belmont:

1565 SDP/KSR

I have carefully reviewed your explanation regarding the delay which occurred before appropriate dissemination was made of information received from the San Juan Division on October 15, 1954, regarding possible violence by members of the Nationalist Party of Puerto Rico to be directed against members of a congressional committee scheduled to visit Puerto Rico and there does not appear to have been any justification for the delinquency in question. You must certainly realize the absolute necessity of making such data available to the appropriate officials with the utmost dispatch and in the instance I have mentioned above this was not done.

Accordingly, I wish to again bring to your attention my desire in such situations so that you will bear this in mind in the future and make certain that there is no repetition of such a delay-

Reference is made to the attached memorandum dated October 18, 1954, relative to the dissemination of information concerning possible violence by the Nationalist Party of Puerto Rico to be directed against members of a Congressional Committee scheduled to visit Puerto Rico at the end of October.

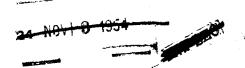

You will recall that I was handling Mr. Boardman's desk when this radiogram was received on the morning of October 15, 1954. The supervisor, Jack Spencer, had been advised by the Night Supervisor at 6:00 am on the morning of October 15, of the receipt of this radiogram and started immediate preparation to disseminate this information to the Departments of Interior and State, to Speaker Martin, to Secret Service, to the Intelligence agencies of the Armed Forces, and to Assistant Attorney General Tompkins in the Department of Justice.

When I read this radiogram on the morning of October 15, it appeared to me, in oxew of the fact that the 47 alleged violence was to take place at the end of October, that the primary matter to be bonsidered at once was whether we should not take direct action to forestall violence by causing the Department to redirect its policy, and instell 1884 of waiting for local authorities to act in Puerto Rico, to take immediate action by the Federal Government in removing the continuing NPPR threat by apprehending Nationalist leaders through the Bureau prior to the end of October. As you will recall, I dictated a memorandum suggesting the immediate consultation with the Department to this end and sent the memorandum through on the morning of October 15. To be sure of the logic of this move, I first called up Section Chief Baumgardner and Supervisor Spencer to discuss the matter, thus interfering with Spencer's dictation on the dissemination. As I stated previously, I honestly thought I was taking the proper course of action because I was scheduled to go/to Puerto Rico the following Monday morning and it was

imperative to get the Department moving if we agreed that the proposed course of action was desirable. This resulted in a delay in getting the original radiogram into the This delay was the result of my judgment in the matter and I am directly responsible for the delay and should be censured for it.

Following the conference with me, Baumgardner and Spencer returned to the dictation of the letters for dissemination. In view of the extent of the dissemination, three original letters and a number of copies were required. Spencer completed the dictation prior to going to lunch. As a result of the hurricane, employees were dismissed at However, we held over stenographers to work on 1:30 pm. this dissemination and other specials. We made a sincere attempt to get these letters out on the afternoon of October 15, but they were not completed until 6:00 pm on October 15. At that time we were unable to get the letters out of the Bureau due to weather conditions and, therefore, sent them through as soon as possible the next morning. At the same time we sent through with them the letter to the Attorney General proposing that he carefully consider and reevaluate the Department's policy as to procedure to be followed in Puerto Rico. Under the conditions that were existent on October 15, neither Baumgardner nor Spencer are responsible for any delay in this matter. I am responsible for the handling of this matter; it was under my personal direction; and, therefore, I recommend that a letter of censure be directed to me.

Late this summer I was advised that my mother is suffering from a heart condition. She resides in Inglewood, California, just outside of Los Angeles, and consequently it is not possible for me to see her frequently. Because of her advanced age, I feel it is very necessary that I visit her this fall.

An analysis of the work of the Division reflects that the best time for such a visit will be the week after next. Therefore, I would like to take annual leave for the week starting November 8, 1954. I plan to fly out to Los Angeles on Saturday, November 6, and return the following Saturday, November 13. The entire time will be spent with my mother and father at their home in Inglewood.

Reference is made to my memorandumento you fixed 10/15 concerning the handling of the San Juan radiogram deted 10/15/setting forth information concerning possible violence to be directed against members of a Congressional compittee scheduled to visit Puerto Rico at the end of October. The Director has noted that this information was not disseminated until 36 hours after it was received in Washington.

As is noted in my referenced memorandum dictation on the dissemination letters to Speaker of the House loseph W. Martin, Jr., the Department of Justice, the United States Department of the Interior, the United States Department of State, the United States Secret Service, ONI, G-2 and USI, was completed prior to 12:30 p.m., 10/15/54. The transcription of these letters was completed on Friday evening 10/15/4, nowever, not in time to go out of the linear Transcript of these letters was delayed due to necessary/changes and corrections. The letter which were dated 10/15/54, were immediately handled following my arrival on Saturday, 10/16/54, and were received in your office at 12:39 p.m. and the Director's office at 1:06 p.m. on the same date.

No oral dissemination of the information alleging, violence contained in the incoming Sen Juan radiogram was made as the violence was alleged to be placed for the arrival of the Congressional committee in Puerto Richt the end of October 1954. In this instance it was considered more desirable to furnish the information in writing in order that there might be no misunderstanding concerning the alleged violence involved or as to the time it was supposed to occur.

time it was supposed to occur.

Our judgment not to afford this matter more expeditious handling is deeply regreted. In the future we will endeavor to handle all matters of this type in accordance with the desires of the Director.

THE DIRECTOR

October 21, 1954

Boardman

NATIONALIST PARTY

Internal Security - N

The purpose of this memorandum is to indicate responsibility for the failure, on the part of Messrs. Baumgardner, Belmont and Boardman, to immediately disseminate information concerning possible violence by the NPPR, to be directed against members of a Congressional Committee scheduled to visit Puerto Rico at the end of October, and to recommend that letters of censure be directed to each of the afore-indicated Bureau officials.

On 3/11/54 I dictated a memorandum to all Jureau officials and supervisors, emphasizing the necessity for immediate dissemination of information received at Bureau headquarters reflecting possible violence against Government officials. It is obvious that I failed to sufficiently impress Messrs. Belmont and Baumgardner with the necessity of taking affirmative immediate action, since in the imstance in question letters of dissemination did not leave the Bureau until some 33 hours after the warning information was received.

Belmont, in his attached memorandum dated 10/21/54, dssumes responsibility for the delay, pointing out that he was on my sest, during my absence, when instant radiogram was received on the morning of 10/15/54; that he delayed dissemination to appropriate Government officials through the medium of conferring with kr. Bauma archer and Supervisor Spencer, who had commenced to prepare the necessary letters of dissemination. Belmont engaged these employees in a policy discussion concerning the desirability of preparing a memorandum to the Department, pointing out the possibility of the Department's immediately proceeding with prosecution against members of the NPPR in Puerto Rico. Belmont indicates this conference contributed to the dissemination delay, for which he assumes full responsibility and recommends he be censured. He pointed out that hurricane Hazel resulted in dismissal of Bureau employees, but nevertheless stenographers were held over for the express purpose of typing the dissemination letters involved in instant matter and other specials being handled in his division.

LVB:CSE

Baumgardner, in the attached memorandum dated 10/21/54, mentions conferring with Belmont, mentions hurricane Hazel, but nevertheless assumes responsibility for not having insured that the dissemination was made more expeditiously.

The dissemination of this information, orally and in writing, could and should have been made more expeditiously than it was.

I am not recommending censure as to Supervisor J. C. Spencer, since he was under the instructions of his official superiors.

RECOMMENDATION:

- 1. I recommend that Section Chief F. J. Baumgardner be censured for failure to insist on the arrangements necessary to insure immediate dissemination of the information in question.
- 2. I recommend that Assistant Director Belmont be censured, in that, despite the fact that he held a conference, he could and should have insured that immediate dissemination be made of the information in question. His policy conference was a separate matter and should not have interfered with the dissemination.
- 3. I recommend that I be <u>censured</u> because of the breakdown in the administrative operations of this office. My instructions, previously given, were not heeded, and I feel that it is my responsibility to insure that, whether I am present or absent, essential operations be properly carried on by subordinates.

As you probably know, under the guidance of Assistant Director Alan H. The New York Agents who attended advised me that they were most impressed by the organization of the material, the manner in which it was presented, and they fully appreciated the opportunity of presenting their suggestions and views in connection with the development and handling of security informants. All enthusiastically agreed that they prefited immeasurably as a result of these discussions and received many helpful suggestions and ideas during the two-day period. Supervisors Baumgapuner, Sullivan and Donahue, as well as Assistant Director Belmont, did a very thorough jeb and were extremely well received by the personnel in attendance.

TRAINING OF BUREAU PERSONNEL IN THE DEVELOPMENT OF SECURITY INFORMANTS

There to attached herewith a letter from SAC Averbach of the Seattle Office dated November 15, 1954, commenting very favorably on the two-day regional conference recently held in San Francisco, Califormia, as part of a series of five such conferences conducted by representatives from the Bureau which were held throughout the United States relating to the development of security informants. In the letter from SAC Austrack, the recommendation was made by him that the Bureau exould extend the idea of regional conferences of personnel engaged in the same type of investigative project to many other lines of our by investigative work & The Director noted in this regard "Give very serious thought to this."

There are also attached herewith letters from the Chicago, San Francisco, 1886 Orleans, Minneapolis, Denver, and Washington Field Office unanimously endorsing the effectiveness of the recent security informant training sessions. These letters were in accordin stating that the instructions received at these regional conferences were: presented in a most insuresting and capable manner and were most. effective à e training technique.

Mose letters point out that the success of these regional ees were based of the following factors:

me bureau representatives were well prepared, completely compersant with the publices matters and Bureau policies inupleed and established on atmosphere which generated full pathusiastic discussions on the part of all participating.

- (2) By holding regional sessions, those offices with related security problems and subjects were brought together, thus making it much easier to have an exchange of ideas in forum discussions on matters of mutual interest.
- (3) The holding of these regional conferences in field offices in an atmosphere familiar to the Agents attending created a definite psychological advantage wherein it was possible to more fully discuss and resolve problems.
- (4) It was also pointed out that the holding of these sessions on informant problems in the field under the direction of the responsible substantive representatives from the Seat of Government was a sound approach towards streamlining and strengthening the Bureau's investigative operations and policies.

My memorandum to you dated November 16, 1954, outlined in considerable detail information concerning these recently concluded the day regional sessions. The suggestions set forth in that memorandum are being considered by the Executives Conference.

The consensus in the attached letters from the field was that additional regional security informant training sessions be held. This suggestion has considerable merit and it is felt that the desirability of follow-up regional training sessions should be considered some time after June 1, 1955.

With respect to additional training sessions in the security field, the Domestic Intelligence Division is giving serious study to this question. We feel it is essential that any subject matter suggested be adaptable to this form of training, bearing in mind that this division is currently contemplating a series of six special security schools to be held in lieu of In-Service during this coming year. We will make further recommendations if we find that regional training sessions are desirable and feasible.

(1) As indicated above, the Domestic Intelligence Division feels that regional conferences held throughout the United States in RECOMMENDATIONS: connection with security work are of considerable value and will result in an improvement in the standard of performance in regard to all phases of security more. The Domestic Intelligence Division will consider of security work. The Domestic Intelligence Division will censider the holding of regional conferences on specific phases of security werk as the need dictates. (3) (by AHB) I consider that these five sessions were highly successful largely due to the careful organization and planning coupled with highly effective presentation by Messrs. Baumgardner, Donohue, Bly, and Sullivan. Irecommend letters of commendation for them. 11/19/54 - Belmont was responsible for the basic planning and direction of these schools, and actually participated very effectively and actually participated very effectively in two of them. I wish to take this opportunity to express to you my personal appreciation for your contributions to the conference on In-Service Training which was hald on December 2, 3, and 4. I fully realize that the members of the conference put in long hours and it was gratifying to me to know of the entire manner in which they approached this meet important project.

I have now had the opportunity of reviewing the results of the conference and have approved the conference's recommendations with minor medifications. I think that it is most important that we keep in very close contact with the new cycle of in-Service Training and the success of the new program will depend largely upon the manner in which it is executed. Your own Division will have a most important assignment in the new cycle of training schools and I am sure if you can impart to your associates your own personal anthultiasm, this will certainly materially assist in getting the new training program off to 3 good start.

I want you to keep in close personal touch with this new In-Service program as I will expect the committee to reconvene in due time to evaluate the results. I lid want however, to tell you that I deeply appreciate your own confributions to the conference.

Dear Mr. Belmont:

I have thoroughly reviewed the facts relative to the handling in the Domestic Intelligence Division of a request made by the Legal Attache, Mexico City, in a letter dated July 12, 1954, for an additional agent for the Mexico City Office. I have observed that this matter was not handled through to completion until September 10, 1954, when a memorandum was submitted recommending Special Agent dof the New Tork Division for this assignment. This delay was due to a large degree to the failure of personnel under your supervision to recognize the need for certain administrative functions, such as the review of personnel files for the selection of a suitable agent, at the time the request was first received instead of waiting until approval had been received from the Department of State for the assignment of an additional agent to perform these duties.

Lam distressed not only over the lengthy delay which occurred in this situation but also at the apparent completency you have exhibited in accepting the fact that such delays are normal. Accordingly, I must insist that you insure for the future that personnel of the Domestic Intelligence fivision more efficiently and more promptly accordingly out their designments.

RE: PERSONNEL NEEDS FOR MEXICO CITY OFFICE Memo to Mr. Boardman from Mr. Belmont advised the Ambassador had approved the assignment and the matter was then taken up with the Department of State. Department of State considered the matter and communicated with the Ambassador in Mexico City. By memorandum of August 16, 1954, it was advised that the Department of State had approved the assignment. This should have been done when my It was then necessary to review innumerable personnet files in an effort to locate an Agent having the requisite espionage training as well as a facility in the Spanish language. XBELMONTS/ NATIONAL RENAISSANCE PARTY SUBJECT: INTERNAL SECURITY (C) The Director deked to be advised concerning the news release made by the House Committee on Un-American Activities concerning the Hee-Pascists. The information appeared in the last edition of the Washington Star newspaper dated December 14, 1954. the Supervisor handling this case had planned to obtain, if possible, on December 15 a copy of the House Committee's report in order that it could be properly analyzed. He had already called the files and shetracts of the Neo-Fascist group prior to the time the Director's inquiry was received. A more detailed memorandum will be submitted regarding this situation. However, there is set out briefly information regarding the National Renaissance Party and "Common Sense. Printed copy not available until 12-17. News stories result from leak. LBN The National Renaissance Party was formerly known as the Animist Party and information concerning this organization was originally furnished to the Department on May 21, 1947. This case is still pending and we have, on a continuing basis, furnished reports to the Department, the intelligence agencies of the armed services, the State Department, and the liaison representative in Heidelberg, Germany. On September 15. 1953; we referred this matter to the Department for its consideration under Executive Order 19450. With respect to it is to be noted that it is a publication edited by of Union, New Jermsyn. one-man operation and is violently anti-Semitic and anti-Megro. There is a current invastigation regarding this matter. Our thinking was to furnish the Director today with complete details regarding this entire situation together with our recommendations. This will be cone; however, we now realize a short memorandum should have been sent up the first thing this morning for the Director's information. It is regretted that this was not done and every effor will be made to see that the Director is promptly advised of matters of this kind in the future. ADBRNDUM: December 16, 1954

I certainly agree that my lack of awareness of the news release made by the HCUA at the time of Mr. Holloman's call to me is inexcusable. I normally try to follow the newspapers and the news casts for matters of Bureau interest. It goes without saying that I wasn't aware of this one. That I was terribly busy that particular evening with a heavy volume of Mail and didn't read the evening paper is no justification since it is quite apparent that I must be continuously alert to the above situations.

Belmont, at the time I called him, was not aware that a supervisor in Baumgardner's section had called for the files on the two organizations in question. He should be cognizant of what is going on in his Division and should have been able to advise me.

To avoid recurrences, however, I have talked with Messrs. Rosen and Belmont concerning the necessity of continuously being alert in matters appearing in the press and promptly instituting any action necessary. I also have talked with the two night supervisors, Consys in Rosen's Division and Martin in Belmont's Division, and again reminded them of the necessity for being alert for items of interest coming in un the Washington City News Service ticker tape, and insuring that appropriate officials are made immediately cognizant of items of interestin order that appropriate action can be taken.

ACTION:

For our derelictions in the handling of this matter, I recommend that Belmont and myself be censured.

took from 12-20 to 12-22-54 to get this memorandum and transcript to the Espionage Section. Attached is a memorandum of explanation showing that the memorandum in question was received in my office at 9:15 a.m., 12-21-54, in Belmont's office 11:46 a.m., 12-21, Liaison Section 1:29 p.m., 12-21, and was time stamped in the Espionage Section at 8:44 a.m., 12-22-54. I find, however, that the memorandum was received in the Espionage Section, from the Liaison Section, on 12-21-54, but was not time stamped in Mr. Branigan's office. Branigan has explained this failure in an addendum to the attached memorandum.

I have discussed this matter with Belmont and have emphasized the necessity for moving mail promptly. I have similarly discussed this situation with Mr. Scatterday in my office.

The Espionage Section reviewed the 200-page transcript of testimony on 12-22 and 23/54, and then prepared a memorandum on Monday, 12-27-54. (You will recall 12-24 was a holiday.) I feel that the memorandum from Mr. Nichols should have moved through to the Espionage Section more quickly, and have vigorously brought this to the attention of the people concerned. It would appear that after it was received in the Expionage Section, it was given prompt attention.

Reference is made to your inquiry as to why it took so long before the Senate Internal for a transcript of testimony of Security Subcommittee on December 13, 1954, to reach the Espionage Section from the Liaison Section of the Domestic Intelligence Division. You also inquired as to why it was in the Liaison Section at all.

By memorandum dated December 20, 1954, to Mr. Belmont, Mr. Nichols advised that the transcript of the above-mentioned hearings had been received at the Bureau and suggested that a short summary of the information contained in the transcript be prepared for the Director's information. The time stamps on the back of this memorandum show that it was received in your office at 9:15 a. m., 12-21-54, Mr. Belmont's office at 11:46 a.m., 12-21-54, Liaison Section at 1:29 p. m., 12-21-54 and received in Espionage Section at 8;44 a. m., 12-22-54. When this memorandum and the attached transcript was received in the Liaison Section at 1:29 p.m., on 12-21-54, it was briefly scanned by the Supervisor of the Congressional Desk, logged in and thereafter personally delivered by the Congressional Desk Supervisor's Clerk to the Secretary in Mr. Branigan's office within an hour from the time it was received in the Liaison Section.

The memo from Mr. Nichols and the transcript was not timestamped in the Espionage Section when it was personally received from the Liaison Section. The memo and transcript were reviewed by Mr. Branigan and placed in the outgoing box sometime after the close of business on December 21, 1954. The memo and transcript were directed to the appropriate Supervisor in the Espionage Section for proper action. In routing the memo and transcript, they were sent through the Espionage Section mail room where the memo was first stamped in on December 22, 1954 at 8:44 a.m.

It is noted that the Congressional Desk in the Liaison Section is set up to receive all testimony from the Senate Internal Security Subcommittee and to act as a central point in the Bureau for such testimony. All testimony received is logged in and a record kept by this desk as to who is handling each piece of testimony. The bulk of Congressional testimony is reviewed by this However, on occasion testimony involving current cases is furnished to the approproate substantive desk for handling as was done in this case.

The clerical work involved in the assembling of the minutes and the preparation of the cover memorandum and letter of transmittal were completed on Monday afternoon, January 10, 1955, and the minutes were forwarded to your office on that date. It was necessary to make two minor corrections in the minutes on Tuesday, January 11, 1955, which were promptly handled. The completed minutes, with attachments, totaled 40 pages. The completion of the minutes could have been expedited by assigning additional stenographic help for this purpose. This was not done, however, as other special matters were being handled at the same time. The importance of having the minutes of these meetings in the hands of the Director and other IIC members at the earliest possible date is recognized, and in the future these minutes will be prepared in sufficient time to reach the Director's office by Friday following the IIC meeting on Wednesday. ADDENDUM (1/13/55):

Sanders points out it was necessary to prepare four IIC letters for approval and transmittal, said letters being given precedence over the minutes. Since the changes to be made in the letters in question were agreed upon at the Conference, the preparation of the four letters in question should have taken very little time. Mr. Belmont, in his memorandum points out that the minutes could have been expedited, and that the importance of having the minutes of the meetings in the hands of the Director and other IIC members at the earliest possible date is recognized. He, however, makes no recommendation as

to any action to be taken with regard to Sanders, despite the stated recognition.

It took entirely too long to get these minutes prepared and I, therefore, recommend a letter of censure to Sanders. I also recommend a letter of censure to Mr. Belmont for his apparent palliation of this situation.

GONFIDENTIAL INFORMANT AND SUBJECT: SIMILAR TYPES OF COVERAGE

In the attached memorandum dated December 30, 1954, the statement was made that the decrease in security informants from 1091 to 1074 may be partially attributed to a decrease in Communist activity in various parts of the country. You commented "Mayberwe don't need all the money we have sought for such investigations."

This decrease in Communist activity refers to the gradual decline in open Party activity in the last few years and the shift lof certain Party activities to the Communist Party underground. It is to be noted that the estimated membership of the Communist Party was dropped from 60,000 in February, 1948, to 23,103 in September, 1954. This gradual decline has been accompanied by a reduction in activity in certain Communist Party clubs that were formerly active in the open Communist Party and has caused the loss of certain informants who were formerly productive but who are no longer in a position to furnish information of value concerning Communist activities

Even though there has been a decline in open Communist Party activities and a decrease in the over-all estimated communist Party membership, there has been a great increase in Compunist Party underground activity which has increased and made more difficult our work in concerning the Communist Furty underground in the United States. Persons who remain in the Communist Party today can be considered hard core, of fanatical Communists. The activities of these persons are more defficult to cover due to stringent security measures placed in effect by the . Communist Party as a result of the first Smith Act trial in New York in 1949, the continuing prosecution of Communist leaders in subsequent Smith Act trials and the hearings before the Subversive Activaties Contro. Board. As noted above, moreover, there has been widespread shift of Communist activity from the open Party to the undergraved and due to its method of operation, this phase of Communist activity has been much more difficult to penetrate than was open's Patty activity. We have made progress in penetrating into the Communist under abound operation principally through the development of phonymous sources. In order to develop anonymous sources, however, we have had by expend much happower. on background investigations and physical surveillances. These sources have produced a transnous amount of information which has also increase our work the Communist field. STATE S

Attachent Journal Office - Mr. Boa MOEXED

Mr. Belmont Mr. Baumgar dner

Ur. McInturff

We have also recognized the necessity of penetrating the Communist underground with live informants and in October and November, 1954, a series of five training sessions were held in key points throughout the country in order to train additional Agent personnel in the development of security informants. The keynote of these schools was the development of informants within the Communist Party underground, which has proven to be a most difficult task. It is expected that in the near future there will be a resultant increase in the number of security informants covering underground activities.

ACTION:

We will continue to follow closely and carefully the development of additional security informants in both the open and underground phases of the Communist Party and related subversive organizations. It is regretted that the statement contained in my memorandum of December 30, 1954, did not clearly indicate that we were referring to the open Communist Party when we spoke of a decrease in Communist activity. This statement should have been more explicit and great care will be taken in the future to insure that statements set forth in memoranda are clear and concise.

1 1	The statement, "decrease in Communist activity in

I, therefore, recommend a letter of censure to Special Agent for inaccurate reporting in the memorandum which he prepared. I also recommend letters of censure for J. A. Sullivan, F. J. Baumgardner, W. V. Cleveland, V. P. Keay, W. W. Klemp, A. H. Belmont, and myself for having approved this memorandum which contained a statement which obviously was incorrect.

Since J. E. Edwards and Frank Holloman are not charged with the intimate knowledge of the content of this communication and would not necessarily have reason to disbelieve the inaccurate statement, I do not recommend administrative action as to them.

I will again emphasize to Belmont and Rosen the necessity for accuracy and conciseness in memoranda, and every effort will be made to minimize these inaccuracies.

Dear Mr. Belmont:

I have thoroughly reviewed the facts relative to the recent mishandling by the Domestic Intelligence Division of certain highly confidential information pertaining to our national security. I have noted that an informant had furnished this information in January, 1955, and after it had been received in the Espionage Section of the Domestic Intelligence Division prompt action was not taken to disseminate it to the appropriate interested Government agencies. I am not unaware that there was a question as to the reliability of the informant in this instance; however, I am deeply concerned over the failure of you and your subordinates to see that this vital information was expeditiously disseminated with a suitable qualification of the reliability of the informant.

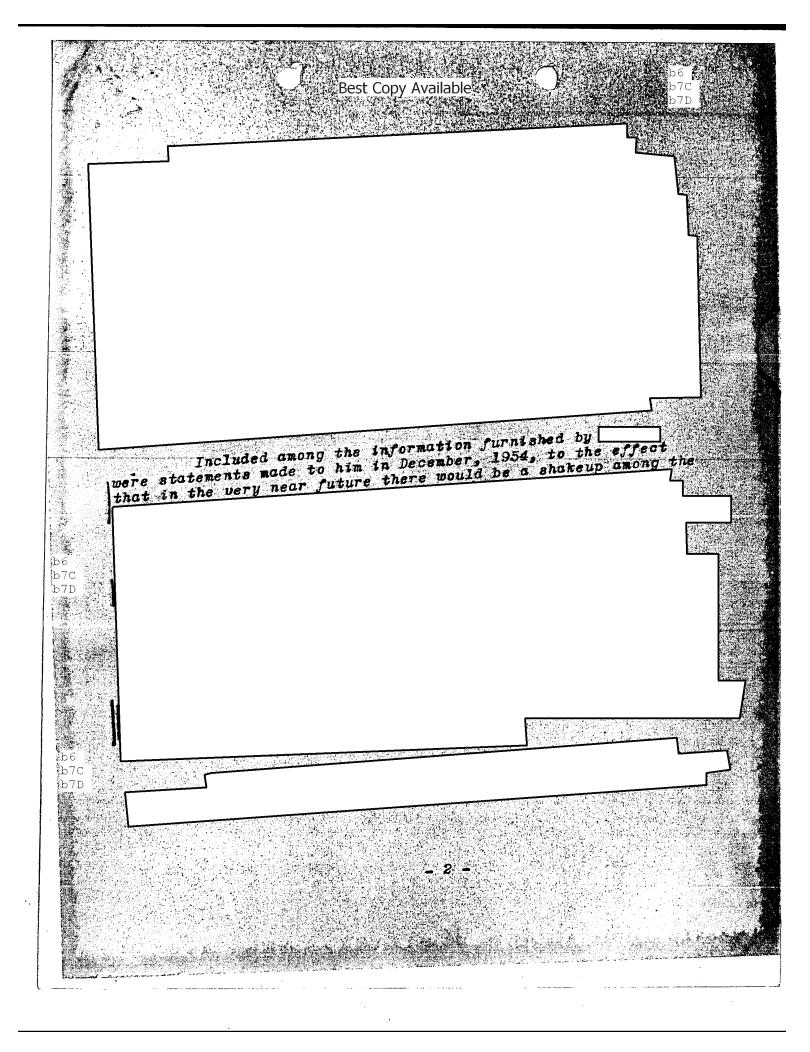

I cannot emphasize too strongly the necessity for the prompt and efficient dissemination of information of this nature and I must insist that in the future the Domestic Intelligence Division handle such matters more efficiently so that the Bureau can properly discharge its responsibilities in this regard.

In this regard, it is to be noted that Mr. William P. Rogers, Deputy Attorney General advised that the Bureau's action of confidential informants was not only proper but was thoroughly justified and had the Department's approval.

In view of the numerous complications encountered in this matter, it was necessary that several conflicting opinions and ideas relating to the solution of this matter be resolved by Mr. Eoardman's Office and Mr. Belmont's Office.

Before a final conclusion could be reached in this matter, it was necessary that this memorandum be returned to the Supervisor six times. It is to be noted that the memorandum was returned to the

Supervisor not for the correction of errors of substance or form, but for a change of the recommendation or for the addition of information regarding the Bureau's policy and previous action taken in such matters.

Regardless of the above facts, too much time was consumed in the handling of this matter and every effort will be made in the future to bring about a more prompt and efficient handling of such matters.

ADDENDUM BY BELMONT: (AHB:jmr) 2-18-55 The delay in this matter was not the fault of the Supervisor, ______, as he took prompt action while the matter was in his hands. The delay was occasioned by conflicting opinions as to how we should approach this, which resulted in the memorandum being rewritten several times based on instructions from Mr. Belmont's office and from Mr. Boardman's office Certainly the matter could have been handled more rapidly and it was Belmont's responsibility to see that it was handled more rapidly. I recommend that I receive a letter of censure concerning this.

Dear Mr. Belmont:

My attention has been called to the explanation you have submitted for engaging in a long-distance telephone call with the Special Agent in Charge of the Atlanta Division on February 28, 1955, lasting for thirty-nine minutes. It was utterly absurd for you to have engaged in a long-distance telephone call of such duration and the reason you have advanced for it constitutes no justification whatever.

I am determined that such extravagance in communications costs shall be eliminated and our long- distance telephone expenditures reduced. Accordingly, I shall hold you personally accountable for seeing to the that you and your subordinates do not again engage in such protracted long-distance telephone conversations at Bureau expense.

Very truly yours,

SUBJECT:

LENGTH OF TELEPHONE CALLS

With reference to your inquiry as to the length of two telephone calls received by me on February 28, 1955, the following is set forth:

ASAC Earl Brown called from Philadelphia relative to an individual who talked to a newspaper editor in Doylestown, Pennsylvania, relative to a check he was making of germ warfare, atomic fall-out and a nerve gas. The editor raised a question as to the accuracy of the information. Inasmuch as this had all the earmarks of a story which could raise hysteria in Pennsylvania and in other parts of the country if it was disseminated, I instructed ASAC Brown to have the individual interviewed at once and gave specific instructions as to how it was to be handled. This was a matter which could not wait.

Relative to the call from SAC Mumford at Atlanta,
Mumford advised of the receipt of a two-page report given by a
girl in the WACs concerning her associations with Harvey Matusow
wherein Matusow told her regarding his association with Senator
McCarthy and gave information indicating why he was putting out
his book and his drive for publicity and to keep his name before
the public. Mumford said this report was given to him by General
Bolling and that Bolling was sending it to Army headquarters
by mail the same day. In view of the importance of the Matusow
case, it seemed imperative to me that we have the contents of
the report at once in order that we could check it for action.
Hence, I had him furnish the information telephonically.

I think a check will reflect that my calls to the field are generally very short, as I talk strictly business and do not indulge in pleasantries. In these two instances I felt that it was necessary to secure the information in the form as I did.

SYNOPSIS

BACKGROUND: San Francisco letter 2/10/55 to Bureau transmitted amended pages of report of SA Troy F. Wilder, San Francisco, 1/6/55. Bureau letter 1/28/55 to San Francisco, prepared by Supervisor, Internal Security Section, Domestic Intelligence Division, pointed out certain information contained in said report as attributable to informants T-12 and T-6 was not documented. This was corrected through the amended pages. Referenced San Francisco letter transmitting amended pages to Bureau contained no explanations concerning the error nor recommendations covering administrative action. Said letter was received in Internal Security Section 2/15/55, and was forwarded by Supervisor to Consolidation Unit of Records Section by routing slip 2/17/55 for substitution and return.

GOVERNING INSTRUCTIONS: SAC Letter 54-23, 5/4/54, provides "In the future all errors to be corrected in reports after they have been forwarded to the Bureau must be submitted by cover letter containing an explanation for the error, together with two copies of any corrections to be made on reports previously disseminated." Section 4A 1 j, Manual of Rules and Regulations, provides, "Amended pages of reports are to be submitted to the Bureau by cover letter. The cover letter must contain an explanation for the error, recommendations for any administrative action, if necessary, together with two copies of the amended pages of reports."

EXPLANATIONS REQUESTED: Bureau letter 2/23/55 to San Francisco, copy to Mr. Belmont, prepared in connection with a survey conducted by Inspector H. C. Van Pelt covering such errors, called attention to foregoing instructions and requested field and SOG explanations.

EXPLANATIONS RECEIVED: SAC W. M. Whelan, San Francisco, advised that (1) reporting Agent Troy F. Wilder dictated the
complete documentation; (2) failure to properly report same was primarily responsibility of transcribing stenographer, Mrs.
who entered maternity leave 2/11/55; (3) SA Wilder, who is a Resident Agent, was not at San Francisco Headquarters 1/6/55 and
accordingly did not proofread instant report; (4) Relief Supervisor
, who approved said report, failed to note the incomplete documentation, and (5) he, SAC Whelan, did not see San Francisco letter.
prepared by Agent Wilder, transmitting amended pages to Bureau, but is
primarily responsible for the proper administration of the office, and he regrets that the required explanations were not included in said
communication. SAC Whelan stated no purpose would be served in
recommending administrative action against in view of her
being in maternity leave status. He recommended no administrative action against Relief Supervisor, explaining that regretted
his oversight, had been admonished, and that a copy of
explanation had been placed in the latter's personnel file.
sog Supervisor explained that following receipt of the amended pages in the Internal Security Section, he routed same to Consolidation Unit of Records Section for substitution in the original report and return to him. He advised that he intended pursuing the matter further through requesting explanation from San Francisco as to why instructions governing submission of amended pages were not followed. Section Chief F. J. Baumgardner and Assistant Director Belmont concurred and recommended no administrative action.
CONCLUSION: The incomplete documentation involved does not appear to be a substantive error; the case has not been jeopardized and the amended pages submitted were administrative pages which are not disseminated. Nevertheless, the San Francisco errors caused undue expense and unnecessary correspondence. SOG Supervisor failed to take immediate action to obtain an explanation from San Francisco and was, therefore, derelict. He had opportunities to request explanation in Bureau letter to San Francisco 1/28/55 and again upon receipt of San Francisco letter 2/10/55.

RECOMMENDATIONS

(1) SA Troy F. Wilder, San Francisco....censure....because of failure to follow existing instructions in forwarding amended pages to Bureau.

(2) Stenographer , San Francisco....That SAC, San Francisco, be advised by Bureau letter of her inadequacy, and that said letter be placed in her personnel file for use in preparing her next performance rating. to Newark, prepared by Supervisor _____, instructed that corrections be made in amended pages submitted, covering certain garbled sentences concerning Croatian Fraternal Union. This letter likewise failed to request explanations from personnel responsible and recommendations of SAC covering administrative action. GOVERNING INSTRUCTIONS: SAC Letter 54-23, 5/4/54, provides "In the future all errors to be corrected in reports after they have been forwarded to the Bureau must be submitted by cover letter containing an explanation for the error, together with two copies of any corrections to be made on reports previously disseminated." The cover letter must contain an explanation for the error, recommendations for any administrative action, if necessary, together with two copies of the amended pages of reports." EXPLANATIONS REQUESTED: Bureau letter 2/23/55 to Newark, copy to Mr. Belmont, prepared in connection with a survey conducted by Inspector H. C. Van Pelt covering such errors. called attention to foregoing instructions and requested field and SOG explanations. EXPLANATIONS RECEIVED: SAL ___ explained that inasmuch as the amended pages covered additional investigation requested by the Bureau, rather than corrections of errors in his original report, he did not feel that above rules governing submission of amended pages applied in this instance. It is not felt said explanation is acceptable. It also appears that his reporting of instant investigation has been seriously deficient, and has resulted in undue b6 expense and unnecessary correspondence. Relief Supervisor who approved SA report of 1/11/55, advised that he felt said report adequately covered the investigation conducted. It is not felt said explanation is acceptable, because of the failure to set forth whether subject was questioned about the three pertinent topics referred to in the first paragraph of this communication, and because of the garbled sentence contained in said report. Relief Supervisor who approved referenced

acceptable. It appears that had Relief Supervisor carefully reviewed this matter, he would have observed serious deficiencies in SA performance and should have insisted upon Agent explanation being submitted to Bureau together with recommendation covering administrative action.
SAC H. G. Foster concurred with SA and Relief Supervisors and and recommended no administrative action be taken against them. As pointed out above, it is not felt this is acceptable. Also, as Special Agent in Charge of the Newark Division it is Mr. Foster's responsibility to insure that investigations and reports are thorough, complete and clear.
sog Supervisor explained he noted the weaknesses in SA initial report of 1/11/55 and initiated corrective action per Bureau letter to Newark 1/21/55. He advised he considered these instructions as amounting to guidance by Bureau rather than concerning correction of errors requiring administrative action. He stated that he accordingly did not feel that above regulations governing submission of amended pages applied. It is not felt said explanation is acceptable. It also appears that Supervisor having recognized serious weaknesses in the attention provided this case at Newark, should have included requests for explanations from personnel responsible and recommendations covering administrative action, in Bureau letters 1/21/55 and 2/14/55.
Chief W. A. Branigan, Espionage Section, Domestic Intelligence Division, stated the field should have followed governing instructions. He recommended no administrative action against Supervisor, pointing out that was constructively supervising case as evidenced by detailed instructions provided Newark. While this constitutes some mitigation, it appears Supervisor was not sufficiently vigorous in his supervision and should have fixed responsibility for the serious deficiencies found.
Mr. Belmont felt was properly supervising the case and recommended no administrative action.

UNITED STATES GOVERNMENT DATE: 3/ /55 Mr. Tolson TO R. T. Harbo Ro 6-20-9/15 TROM ! SUBJECT: AMENDED DOCUMENTS (CORRECTED OR REVISED REPORTS) BACKGROUND: Survey conducted by Inspector H. C. Van Pelt in accordance with Director's instructions to make therough check as to why voluminous number of errors and changes in reports, which apparently have had to be made, were never Saken by either pomestic Intelligence or for responsibility for such errors. recommendations from SACs as to administrative action.

Ur. Beardman stited that the voluminous number of errors made by the field shows that issufficient action was taken by Domestic Intelligence Division and Investigative Division to reduce the volume.

TYPES OF ERRORS INVOLVED

There is an attached sheet identifying the errors relating to the 22 cases previously mentioned. Although Mr. Belmont stated at the Executives Conference on 3/3/55 that the 12 errors referred to his Division were of "form-type" the 1570 attached sheet shows some very serious substantive errors causing undue expense and unnecessary correspondence. An example is the Internal Security case involving wherein the Philadelphia Office on 1/10/55; submitted three amended pages involving:

- A. Changing statement that both prefer to reside in the United States... changed to eliminate
- B. "She further stated she could read her mother's script..." changed to insert the word "not" ... completely changing the substance.
- C. Change to delete Confidential Informant T-1 and insert instead "records of Immigration and Naturalization Service in Philadelphia."

In addition, the Seat of Government Supervisor found it necessary to amend five pages in the same report in order to remove information which would prevent dissemination of the document to other agencies.

b6 b7C	Philadelphia letter 1/10/55, contains no explanation as to why the errors were made and contains no recommendation as to administrative action; transmitted three amended pages of a report submitted 12/31/54. The errors were of substance and involved:
	(a) Originally was quoted as saying that "both prefer to reside in the United States the amended page eliminated
	(b) It was initially stated script" which was changed to script."
b 6	(c) Delete Confidential Informant T-1 and substitute instead "records of Immigration and Naturalization Service at Philadelphia." Thereafter on 1/19/55, Supervisor transmitted to Philadelphia five additional amended pages; these amended pages were necessary in
	erder to prepare the report of 12/31 for dissemination and relate to such matters as love affairs, miscarriages and abortions. Domestic Intelligence Division requested no explanation from the Philadelphia Office.
2. [b6 b7c	Bureau letter to Newark 1/25/55, prepared by Supervisor , Espionage Section, pointed out to Newark that report of Agent 1/11/55, failed to reflect that subject was questioned about travel to meeting of the

GOVERNING INSTRUCTIONS: SAC Letter 54-23, 5/4/54, provides "In the future all errors to be corrected in reports after they have been forwarded to the Bureau must be submitted by cover letter containing an explanation for the error, together with two copies of any corrections to be made on reports previously disseminated." Section 4A 1 j, Manual of Rules and Regulations, provides, "Amended pages of reports are to be submitted to the Bureau by cover letter. The cover letter must contain an explanation for the error, recommendations for any administrative action, if necessary, together with two copies of the amended pages of reports."

EXPLANATIONS REQUESTED: Bureou letter 2/23/55 to Milwaukee, copy to Mr. Belmont, prepared in connection with a survey conducted by Inspector H. C. Van Pelt covering such errors, called attention to foregoing instructions and requested field and SOG explanations.

EXPLANATIONS RECEIVED: SA explained (1) he completely covered the New York lead but failed to fully dictate the results; (2) he did not detect the incomplete reporting because he was not available to review same before its transmittal to the Bureau, and (3) he prepared the Milwaukee letter transmitting the amended pages to the Bureau, not understanding that above SAC Letter referred to errors of this type.

. b6

Supervisor ______, Milwaukee, explained (1) he overlooked the fact that SA ______ report omitted information called for in the lead set out by New York, and (2) he approved the Milwaukee letter transmitting the amended pages to the Bureau because he did not understand that above SAC Letter referred to errors of this type.

SAC J. B. Poster, Milwaukee, advised he made it clear to both SA and Supervisor Lovrien that the correction made in SA report falls within the purview of above SAC Letter, and that he impressed upon them the necessity for completeness and accuracy in the submission of reports. SAC Poster recommended no administrative action be taken.

b6

SOG Supervisor Wacks advised (1) the purpose of his letter to Milwaukee 1-21-55 was to ascertain whether the New York lead was fully covered, and (2) upon receipt of the amended page he did not feel the matter waranted administrative action since the matter had been called to Milwaukee's attention, and he did not feel further correspondence to secure explanations was necessary.

Chief W. A. Branigan, Espionage Section, Domestic Intelligence Division, stated the field should have followed governing instructions. He recommended no administrative action against Supervisor Wacks, and Mr. Belmont concurred. RECOMMENDATIONS (1) SA [, Milwaukee...Recommendation being submitted separately covering this and another similar matter. (2) SA Milwaukee...censure...for failure report and for failure to detect and correct error in SA to see to it that governing instructions were followed in the submission of the amended page. (3) SAC J. B. Poster, Milwaukee...Recommendation being submitted separately covering this and another similar matter. (4) SA J. F. SYNOPSIS

BACKGROUND: New York, by routing slip 2/10/55, transmitted amended pages 1 and 4 for the report of SA Gerard A. Pondo, entitled as above, and dated 1/26/55 at New York. This report contained the statement that subject was a member of the Thompson Hill Club, Communist Party, from 1938 to 1945. Form 0-17 dated 2/4/55, prepared by SOG Supervisor ______, requested the period of 1938 to 1945 be broken down to show membership in Communist Party and Communist Political Association. This was done by above amended pages which were transmitted to the Bureau by routing slip containing no explanation for the error and no recommendations for administrative action. This routing slip with amended pages was received in the Domestic Intelligence Division 2/14/55 and forwarded by Supervisor ______ to Consolidation Unit, Records Section, by routing slip 2/16/55 checked "note and return."

GOVERNING INSTRUCTIONS: SAC Letter 54-23, 5/4/54, provides "In the future all errors to be corrected in reports after they have been forwarded to the Bureau must be submitted by cover letter containing an explanation for the error, together with two copies of any corrections to be made on reports previously disseminated." Section 4A 1 j, Manual of Rules and Regulations, provides, "Amended pages of reports are to be submitted to the Bureau by cover letter. The cover letter must contain an explanation for the error, recommendations for any administrative action, if necessary, together with two copies of the amended pages of reports."

EXPLANATIONS REQUESTED: Bureau letter 2/23/55 to New York, copy to Mr. Belmont, prepared in connection with a survey conducted by Inspector H. C. Van Pelt covering such errors, called attention to foregoing instructions and requested field and SOG explanations.

EXPLANATIONS RECEIVED: SAC Kelly, New York, advised Bureau's request on Form 0-17, 2/4/55, was complied with. Amended pages were prepared by SA Pondo, approved by Supervisor F. J. Sandin and submitted to the Bureau by routing slip. SA Pondo advised he reported the information as it had been given by the informant in 1945. Supervisor Sandin explained he felt the amended pages were being submitted for clarification rather than because of an error and, therefore, submitted pages by routing slip without letter since no recommendation for administrative action was contemplated.

SAC Kelly advised both SA Pondo and Supervisor Sandin have been cautioned to use more care in the future to be certain that accurate reporting is done and that he has placed a copy of his letter of explanation of 2/28/55, in the personnel folders os SAs Pondo and Sandin. SAC Kelly recommends no further administrative action.

SOG Supervisor advised that his first consideration was for the accuracy of Eureau records and that upon receipt of amended pages he sent them to Consolidation Unit for insertion in the Eureau files and that he would have handled the question of a letter requesting explanation from the field on return of amended pages from Consolidation Unit. Section Chief F. J. Baumgardner and Assistant Director Belmont concurred and recommended no administrative action.

b6

CONCLUSION: SA Pondo's report of 1/26/55 reflects an informant reported subject to be a member of the Thompson Hill Club, Communist Party, 1938-45, per informant's report 5/27/45 (T-9). Amended page 4, as submitted by NYO, reflects T-9 advised subject a member of Thompson Hill Branch, Communist Political Association, in 1944 and to February, 1945, and that subject was a member of Thompson Hill Branch, Communist Party, 1938 to 1944.

In New York letter 2/28/55, SA Pondo explained he originally reported the information as it had been given by informant in 1945. Thus, amended page 4 must necessarily be erroneous inasmuch as there is no indication that the informant was reinterviewed in the interim. Actually, the Communist Political Association replaced the Communist Party from May, 1944, to July, 1945. SA Pondo, in submitting original report, should have clearly shown that Communist Party had disbanded in favor of Communist Political Association from May, 1944, to July, 1945.

Supervisor , New York, telephonically advised 3/7/55 that New York will submit letter correcting the above situation. F. J. Baumgardner, Section Chief, Internal Security Section, Domestic Intelligence Division will submit SAC Letter pointing out necessity for accurate reporting in this and similar situations.

RECOMMENDATIONS

- (1) SA Gerard A. Pondo, New York....censure....for not questioning and clarifying the information attributed to T-9 and submitting an accurate report initially.
- (2) SA Francis J. Sandin, New York....censure....as supervisor he should have detected and corrected the manner in which SA Pondo reported the information relative to subject having been a member of Thompson Hill Club, Communist Party, 1938-45.
- (3) SAC J. J. Kelly, New York....Recommendation being submitted separately covering his over-all responsibility in this and other similar matters.

b6

(4) Supervisor Recommendation being submitted separately covering this and other similar matters.

(5) Chief F. J. Baumgardner, Internal Security Section Recommendation being submitted separately covering this and other similar matters. (6) Inspector V. P. Keay, Domestic Intelligence Division.... In view of his being previously censured for this and other similar matters. SYNOPSIS

BACKGROUND: Bureau directed an error form (0-17) prepared by SOG
Supervisor Kirby A. Vosburgh, Internal Security Section,
Domestic Intelligence Division, to Honolulu 2/8/55 requesting correction
of page 3 of report of SA Leo S. Brenneisen dated 1/27/55 at Honolulu.
By routing slip (FD-4) 2/15/55 Honolulu submitted amended pages to
above report. Page 3 of details originally reflected Subject's
Security Index Card was current. No explanation for the error was
requested on Form 0-17 and no explanation for the error or recommendations
were submitted with amended pages from Honolulu 2/15/55. Date stamp
reflects amended pages received at Bureau 2/18/55. Supervisor Vosburgh
advised whenhe received amended pages 2/23/55 the file was attached and
Training & Inspection Division had already taken required action by
writing Honolulu.

GOVERNING INSTRUCTIONS: SAC Letter 54-23, 5/4/54; provides "In the future all errors to be corrected in reports after they have been forwarded to the Bureau must be submitted by cover letter containing an explanation for the error, together with two copies of any corrections to be made on reports previously disseminated." Section 4A 1 j, Manual of Rules and Regulations, provides, "Amended pages of reports are to be submitted to the Bureau by cover letter. EXPLANATIONS REQUESTED: Bureau letter to Honolulu 2/23/55, copy to Mr. Belmont, prepared in connection with a survey conducted by Inspector H. C. Van Pelt covering such errors, called attention to foregoing instructions and requested field and SOG explanations.

EXPLANATIONS RECEIVED: Memorandum from SAC, Honolulu, 3/1/55 states:

Examination of notebook of Stenographer

reflects statement "Subject's Security Index Card is current" appears after last part of details but apparently SA Brenneisen did not sufficiently instruct the stenographer that this sentence was to be included on administrative page. SA Brenneisen, dictating Agent, had not reviewed report after transcription. SAC Williams explains that through inadvertence he failed to detect error on page 3 and with reference to submission of amended pages by routing slip, SAC Williams advised Honolulu Office has been erroneously submitting amended pages to reports by routing slip where report was not disseminated locally. He added that this erroneous practice has been stopped and all employees have been cautioned to exercise care in dictation and transcription of reports. He recommends no administrative action.

SOG Supervisor Vosburgh explained he did not receive amended pages until after Training & Inspection Division had taken necessary action by writing Honolulu and he therefore had no opportunity to take required action in this instance.

CONCLUSION:

The investigation does not appear to have been jeopardized; however, the errors in question have caused added expense and unnecessary correspondence.

RECOMMENDATIONS

- 1. SA Leo S. Brenneisen, Honolulu . . . Censure . . . for failure to adequately instruct the stenographer that the sentence "Subject's Security Index Card is current" should appear on the administrative pages.
- 2. SAC John H. Williams, Honolulu . . . Censure . . . for failure to detect and correct error in instant report prior to approving it at Honolulu and for failure to follow existing Bureau instructions relative to submission of amended pages.

SOG Supervisor Kirby A. Vosburgh, Internal Security Section, Domestic Intelligence Division . . . Censure . . . Although he recognized weaknesses in this case by Honolulu Office, failed to request explanations and recommendations from Honolulu personnel at time of requesting corrected pages. 4. Section Chief F. J. Baumgardner, Internal Security Section, Domestic Intelligence Division . . . recommendation being submitted separately regarding this and similar matters. 5. Inspector V. P. Keay, Domestic Intelligence Division . . . recommendation being submitted separately covering this and other similar matters. 6. Assistant Director A. H. Belmont, Domestic Intelligence Division . . . no action . . . in view of his being recommended separately for censure for this and other similar matters. SECURITY MATTER - C Bufile 100-412214

SYNOPSIS

BACKGROUND: Albany, by memorandum 2/15/55, voluntarily submitted amended pages 2 and 3 to report of SA George P. Simpson, 9/24/54, which report contained the following administrative data in the last paragraph of details:

"During the interview of the subject on September 16, 1954, she attempted to give the interviewing agents the impression that she had no knowledge of Communism in general, however, her attitude was antagonistic, defensive, and she appeared to want to give the impression of being more ignorant and lacking of intelligence than she probably is. It is felt that further interview of the subject is not warranted in view of the obvious uncooperative attitude displayed. ______ is not recommended for the Security Index at this time since her known activities have been limited to the or national defense capacity."

This error was not called to attention of Albany Office by SOG but notation placed on original copy of report in Bureau file by SOG Supervisor Robert L. Van Wagoner, Internal Security Section, Domestic Intelligence Division, when report received at Bureau, that report contained administrative information and should not be disseminated in future. Albany memorandum of 2/15/55 does not contain explanations or recommendations as to the error in above report. This memorandum received Internal Security Section, Domestic Intelligence Division, 2/17/55, and sent to Consolidation Unit, Records Section, on routing slip by SA Van Wagoner on same date for recording, correction and return.

GOVERNING INSTRUCTIONS: SAC Letter 54-23, 5/4/54, provides "In the future all errors to be corrected in reports after they have been forwarded to the Bureau must be submitted by cover letter containing an explanation for the error, together with two copies of any corrections to be made on reports previously disseminated." Section 4A 1 j, Manual of Rules and Regulations, provides, "Amended pages of reports are to be submitted to the Bureau by cover letter. The cover letter must contain an explanation for the error, recommendations for any administrative action, if necessary, together with two copies of the amended pages of reports."

EXPLANATIONS REQUESTED: Bureau letter 2/23/55 to Albany, copy to Mr. Belmont, prepared in connection with a survey conducted by Inspector H. C. Van Pelt covering such errors, called attention to foregoing instructions and requested field and SOG explanations.

EXPLANATIONS RECEIVED: SA George P. Simpson, Albany (Resident Agent, Syracuse, New York), stated he submitted a typed rough draft of a report on subject 9/16/54; that it contained an administrative page because he had expressed some personal opinions concerning the subject's attitude during the course of an interview. SA Simpson did not review the report of 9/24/54 before it was submitted to Bureau. SA Simpson, upon receiving case file 2/10/55, noted report of 9/24/54 contained administrative data in details and dictated corrected pages 2/11/55 but due to urgency to catch train and return to Resident Agency, requested stenographer to prepare transmittal memorandum for amended pages. Former Field Supervisor , Albany, explained he had no recollection of seeing a rough **b**6 draft report in this case or signing report of 9/24/54. SAC Soucy, Albany, advised did approve report in question. SA explained he had instructed SA Simpson to prepare amended pages and appropriate cover letter on 2/11/55. SA[then supervisor. Albany Office, approved Albany letter transmitting amended pages without explanations and recommendations 2/15/55. He states explanations and recommendations should have been included.

b6

Stenographer has no recollection as to whether she typed report of 9/24/54 from rough draft or dictation and whether SA Simpson in any way indicated the last paragraph of details should have been placed on administrative page.

Albany letter of explanation 3/1/55 was prepared and approved by ASAC Jamieson, additional explanations and recommendations were submitted by teletype at Bureau request 3/9/55. SAC Albany recommends (1) censure for SA Simpson for failure to comply with existing Bureau instructions in preparation of a report, (2) censure for former Supervisor Joslin for failure to comply with Bureau instructions in SAC Letter 54-23, and for approving report of SA Simpson 9/24/54 which was not in conformance with Bureau instructions on report writing,

(3) censure for ASAC Jamieson for submitting an incomplete memorandum of explanation and recommendations as to SA Joslin on 3/1/55, and (4) SAC, Albany, recommends no administrative action for Stenographer since it cannot positively be determined whether report was typed from rough draft or dictation and whether proper instructions were given her relative to the administrative data which appeared in last paragraph of details.

SOG Supervisor Van Wagoner, Internal Security Section, Domestic Intelligence Division, explained that in September, 1954, he noted the error in the report in question but corrected pages were not requested since no dissemination was necessary; the investigation had been carried to a point where further investigation was not warranted and the case was being closed. He further explained that he placed a notation on page 1 of SA Simpson's report when it was received at Bureau to the effect that this report should not be disseminated in the future.

SA Van Wagoner explained further that upon receipt of amended pages at Bureau he immediately sent them to Consolidation Unit, Records Section, to record, correct and return in order to comply with Bureau instructions that all mail be recorded as soon as possible upon receipt at Bureau, but that he intended to request explanations and recommendations when the amended pages were returned to him.

Section Chief F. J. Baumgardner and Assistant Director Belmont, Domestic Intelligence Division, recommend censure for SA Van Wagoner for failure to follow existing Bureau instructions after having noted error in report of SA Simpson 9/24/54.

CONCLUSION: The investigation has not been jeopardized, nevertheless the Albany errors caused undue expense and correspondence. It does not appear from information available that it can be clearly resolved as to whether SA Simpson or Stenographer Distell was responsible for the improper preparation of the original report; be however, SA was in error in having approved this report, and for having approved the incomplete memorandum dated 2/15/55 submitting the amended pages. ASAC Jamieson is responsible for having submitted an incomplete memorandum of explanation 3/1/55, and SA Van Wagoner is responsible for failure to take appropriate action upon detection of error in SA Simpson's report of 9/24/54.

RECOMMENDATIONS

(1) Stenographer, AlbanyNo administration actionNo definite determination can be made at this time as to whether she was given proper instructions concerning the last paragraph of the details of the report of SA Simpson, 9/24/55, which contained administrative data.	
(2) SA George P. Simpson, Albany (Resident Agent, Syracuse, New York)censurefor failure to provide cover memorandum in accordance with existing Bureau rules in submitting amended pages 2/15/55. Responsibility for error in report 9/24/54 cannot be clearly fixed on SA Simpson since it cannot be determined whether Stenographer prepared report from rough draft	
or dictation.	o 6

- (3) Former Supervisor, Albany....censure.... for failure to detect and correct error in report of SA Simpson, 9/24/54, and for approving memorandum 2/15/55 submitting amended pages, which memorandum did not comply with existing Bureau instructions.
- (4) ASAC Joe D. Jamieson, Albany....censure....for failure to clearly identify supervisory official who approved SA Simpson's report of 9/24/54 and failure to include recommendations for administrative action as to the supervisor who approved the report 9/24/54 in Albany letter of explanation 3/1/55.
- (5) SAC Edward A. Soucy, Albany....censure....for weaknesses in the functioning of the Albany Office.

(6) SOG Supervisor Robert L. SYNOPSIS

BACKGROUND: Summary report of SA Victor Carrelli, New York, 6/19/53, with copy designated for the Immigration and Naturalization Service, New York, set forth the following information in page 2, paragraph 3, under caption of "Marital Status":

"The records of Confidential Informant T-2, of known reliability, an agency which maintains background information b6 on individuals, reflected that was married at b7C Danbury, Connecticut, on May 3, 1941. The records listed his and further reflected that in 1942 wife as and that he had contributed to the support of and his wife since 1932." (No explanation was included reconciling marriage in 1941 with contributing to support of wife since 1932.) Informant page identified T-2 as "Selective Service Records - 1942 registration of subject's husband."

New York letter to Bureau 2/4/55 advised that 0-17 (Error Form) received from Bureau 1/20/55 instructed that on page 2, paragraph 3, line 8, of referenced report, "1932" was being changed to "1942" and that New York Office should change its copies. Said New York letter pointed out that "1932" is correct date and that an amended page 2 was being submitted to clarify wording of paragraph 3.

GOVERNING INSTRUCTIONS: SAC Letter 54-23, 5/4/54, provides "In the future all errors to be corrected in reports after they have been forwarded to the Bureau must be submitted by cover letter containing an explanation for the error, together with two copies of any corrections to be made on reports previously disseminated." Section 4A 1 j, Manual of Rules and Regulations, provides, "Amended pages of reports are to be submitted to the Bureau by cover letter. The cover letter must contain an explanation for the error, recommendations for any administrative action, if necessary, together with two copies of the amended pages of reports."

EXPLANATIONS REQUESTED: Bureau letter 2/23/55, to New York, copy to Mr. Belmont, prepared in connection with a survey conducted by Inspector H. C. Van Pelt covering such errors, called attention to foregoing instructions and requested field and SOG explanations.

FIELD EXPLANATIONS: ASAC D. E. Moore, New York, telephonically informed Inspector Van Pelt 3/10/55 that: SA Carrelli explained his report of 6/19/53 was originally written to convey thought that subject "in 1942" had a daughter whom he had been supporting since 1932. When he proofread said report, it seemed to convey that idea. SA Carrelli now feels it could be misinterpreted, and should have been originally worded so there could be no doubt as to its meaning. He regrets it happened and will insure that his reports in future measure up to Bureau standards as to clarity and accuracy.

ASAC Moore also informed Inspector Van Pelt that:
Relief Supervisor who approved Agent Carrelli's report 6/19/53, explained he thought its phraseology was clear at the time, but upon further review of said report, he now feels paragraph in question was not clearly expressed and could be misinterpreted.

b6

ASAC Moore further informed Inspector Van Pelt 3/11/55 prepared New York's memorandum to Bureau 2/4/55 advising that "1932" is correct date for page 2, paragraph 3, line 8, of SA Carrelli's report and that **b**6 amended page was being submitted. Said memorandum was approved by Supervisor Both SA Supervisor Bennett stated they thought explanation that "1932 is the correct date" and that "New York is submitting amended page 2 to clarify the wording of page 2" was sufficient. New York letter 2/28/55 advised that (1) inasmuch as "1932" is the correct date, New York had not made change **b**6 to "1942" in SA Carrelli's report, as instructed per 0-17 Form received from Bureau 1/20/55; (2) paragraph was rewritten to clearly reflect that "1932" is the correct date so there could be no question about it; and (3) since there was no error involved in said report, no administrative action was recommended. Said letter was prepared by Supervisor ASAC Moore advised Inspector Van Pelt 3/11/55 that instant letter was approved by ASAC A. J. Marchessault, after h6 confering with him (ASAC Moore) and SACJ. J. Kelly. ASAC Moore explained that he and Supervisor ______ ASAC Marchessault and SAC Kelly each felt at the time that sufficient explanation had been provided, but in their subsequent analysis of the matter they felt that further explanation should be furnished Bureau.* Bureau file contains only 1 out of 5 copies STATUS OF SOG FILE: of SA Carrelli's report designated for SOG, and Records Section has been unable to locate the 4 missing copies. File does not reflect any disposition of said 4 copies, including the original. The latter is the one usually bearing the time and routing stamps and initials reflecting handling and approval for filing. Because copies of subsequent investigative reports received show that copies of these latter reports were disseminated to the Immigration and Naturalization Service and to Records Administration Branch of the Department of Justice, it appears likely that copies of SA Carrelli's original report

of 6/19/53 were similarly disseminated. SOG file does

not reflect sending of afore-mentioned 0-17 Form instructing New York to change date in question from "1932" to "1942." However, said change has been made in ink, uninitialed and

Supervisor SOG EXPLANATIONS: Internal Security Section, advised (1) he has no independent recollection of approving SA Carrelli's report of 6/19/53, but feels he must have approved same for filing because it was he who approved New York's accompanying memorandum 6/19/53 recommending that subject be listed in Security Index; (2) he did not change the date on the file copy of said report; (3) he did not send the error form received New York 1/20/55, being on leave 1/4-24/55; (4) he approved New York's letter 2/4/55 indicating that "1932" is correct date and that amended page would be submitted; (5) he did not see New York's routing slip 2/2/55 which transmitted the amended page (said routing slip and amended page do not reflect receipt in Domestic Intelligence Division); and (6) he has no knowledge as to the missing copies of Agent Carrelli's report. Supervisor Internal Security Section,

Supervisor , Internal Security Section, advised (1) he handled some of Supervisor work while the latter was on leave in January, 1955; (2) he recalled observing the questionable phraseology in Agent Carrelli's report and said that his change of the date from "1932" to "1942" seemed proper at the time because of the indication that subject was married 5/3/41; (3) he now recognizes he should have requested New York to clarify the matter instead of assuming that "1942" was the correct date and instructing New York to change its copies; (4) he feels that the original of SA Carrelli's report was in file at the time and that he made an endorsement on same to indicate that he sent the error form to New York; and (5) he has no knowledge as to the present whereabouts of the original and other copies of said report, other than the one in file and the two copies apparently disseminated.

Sup. J. W. Marshall of the Records Section advised that (1) a thorough search has been made to account for the original and other missing copy of SA Carrelli's report, but with negative results; (2) said search is continuing.*

CONCLUSION: That (1) SA Carrelli is derelict for not clearly describing Samuel Friedman's marital status in his report of 6/19/53; (2) Relief Supervisor , New York, should have detected and corrected same; (3) SOG Supervisor Johnson should have requested New York to clarify its reporting and to fix responsibility for the weaknesses therein; (4) SOG Supervisor was in error in assuming "1932" was an incorrect date and changing same, but should have requested New York to clarify same and fix responsibility for the weaknesses; (5) SA and Supervisor both New York, are negligent for failure to follow existing instructions governing submission

*Sect. Chief W. G. Eames and Sup. in Chge. F. W. Waikart confirmed same.

of amended pages; (6) Supervisor, ASACs Marchessault and D. E. Moore, and SAC Kelly, all New York, are negligent for advising Bureau 2/28/55 there was no error in SA Carrelli's report, in view of the fact it was necessary to completely rephrase the paragraph in question; and (7) It does not appear that responsibility for the missing copies of SA Carrelli's report can be definitely resolved at this time, because said copies were purportedly in file when SOG Supervisor sent the error form received at New York 1/20/55; Records Section is continuing search.
RECOMMENDATIONS
(1) SA Victor Carrelli, New Yorkcensurefor lack of clarity in his report 6/19/53.
(2) SA, New Yorkcensurefor failure as Relief Supervisor to detect and correct lack of clarity in SA Carrelli's report 6/19/53.
(3) SOG Supervisor Internal Security Sectioncensurefor failure to detect and correct lack of clarity in report of SA Carrelli 6/19/53. (He feels he must have approved said report for filing because he approved New York's accompanying memorandum 6/19/53 recommending that subject be listed in Security Index.)
ъ6
(4) SOG Supervisor, Internal Security Sectioncensurefor erroneously assuming date of "1932" was inaccurate and changing Bureau copies and instructing New York to correct its copies, rather than requesting New York to clarify and fix responsibility.

initially followed this procedure, as set forth in Section 87C, 3b, Manual of Instructions, which states that one of the primary purposes of security investigations is "The determination of the identities, whereabouts and activities of individuals who b6 have or may be violating laws of the United States Said Bureau letter 1/19/55 prepared by Supervisor approved by Supervisor in Charge J. J. Meehan, Section #1 Man S. B. Donahoe, by Supervisor for Assistant Director Belmont, by Mr. Scatterday for Assistant Director Boardman and by Assistant Director Mohr. Philadelphia air-tel 3/17/55 advised FIELD EXPLANATIONS: (1) SA| is a Resident Agent and was not at Philadelphia headquarters to proofread his 12/31/54 report; (2) SA _____ feels errors in pages 3 and 11 to be typographical: stenographic notes destroyed; Stenographer states it is unlikely that he would have transcribed several words not actually dictated; (3) said b6 report was reviewed and approved by Supervisor who changed "Confidential Informant T-1" to "Immigration and Naturalization Service at Philadelphia" on page 5, feeling it undesirable to conceal I&NS as a source. failed to similarly change page 20; Supervisor (4) upon receiving copy of said report, SA _____ noticed the errors in pages 3, 11 and 20. He prepared rough draft amended pages and rough drafted Philadelphia's letter of transmittal 1/10/55. He forwarded same to Philadelphia by routing slip indicating that corrections were necessary because of typographical errors and inconsistency of the designation of I&NS; and (5) Philadelphia letter 1/10/55 was approved by Relief Supervisor Albert Rundbaken who felt no explanations nor recommendation covering administrative action were necessary. Said Philadelphia air-tel pointed out that (1) Section 87C, Manual of Instructions, was expanded 1/14/55 through addition of paragraph 3c covering "Fraud Against Government Violations Detected During Security Investigations, "after SAC Letter 54-74, issued 12/28/54 and received Philadelphia 12/30/54, reiterated and amplified prior instructions of paragraph 3b that the field be alert for information indicating b6 violations of Federal statutes during the course of security b7C b7D investigations; (2) SA was not cognizant of provisions of said SAC Letter or new Section of Manual covering Fraud Against Government violations detected during security investigations at time of submission of instant report: (3) the false occurred in 1950, and may not be cognizable in the United States and may be barred by Statute of Limitations; and (4) both SA and Supervisor

felt such data related more to possible basis for denial of citizenship and deportation than Fraud Against Government. Above-mentioned Philadelphia air-tel also advised ___included in his report of 12/31/54 the information received concerning , since it pertained to moral turpitude of an applicant for American citizenship; and (2) Supervisor did not delete same, feeling it would be of value to I&NS. b6 b7C SAC N. H. McCabe, Philadelphia, recommended (1) no b7D administrative action concerning Stenographer (2) censure for SAs Price and Rundbaken for failure to follow existing Bureau instructions governing submission of amended pages; and (3) no action was recommended against Supervisor by SAC McCabe because the SAC felt the Supervisor's failure to change the T-1 designation for I&NS was not b6 sufficiently serious. Supervisor explained EXPLANATIONS OF ESPIONAGE SECTION: he did not request explanations from Philadelphia and recommendations covering administrative action (1) upon receipt of the three amended pages transmitted per Philadelphia letter 1/10/55, because said errors were detected and corrected by Philadelphia and were not considered substantive to the investigative issues, (2) upon his detection of the nonpertinent recriminatory data furnished by subject against the latter's wife, and furnishing five corrected pages to Philadelphia per Bureau letter 1/19/55, because he considered this to be a matter of judgment as to what should be included in the report, and (3) for failure to open a separate case and submit a separate report covering possible fraud upon the part of subject's wife, feeling that the instructions contained in Bureau letter 1/19/55 to Philadelphia to open a separate case and submit a separate report covering the activities of subject's wife constituted supervisory guidance to assure more effective administration. Supervisor in Charge Meehan and Section #1 Man Donahoe advised (1) they had thoroughly discussed instant case with before Bureau letter to Philadelphia 1/19/55 Supervisor | **b**6 was prepared, and (2) they felt the deletion of the nonpertinent recriminatory data and the instruction to open a separate file on subject's wife were matters of judgment rather than error upon the part of Philadelphia, and that they consequently did not instruct that explanations be obtained.

- 4 -

h6

Supervisor in Charge ______explained (1) he was temporarily working in Mr. Belmont's office 1/19/55 and approved Bureau letter of that date to Philadelphia for Mr. Belmont; (2) he observed that five amended pages were transmitted to Philadelphia deleting nonpertinent recriminatory statements and instructing that a separate case be opened on subject's wife; and (3) the report had not been disseminated prior to the corrections and he felt the Bureau's letter was more in the nature of supervisory guidance.

EXPLANATION OF MR. SCATTERDAY: He stated that (1) he had no knowledge of Philadelphia's letter 1/10/55 transmitting amended pages to the Bureau; (2) he approved Bureau letter 1/19/55 to Philadelphia feeling that the deletion of personal recriminatory data involved a matter of opinion and did not constitute error by Philadelphia; (3) he considered the instruction to Philadelphia to open a separate case on subject's wife constituted supervisory guidance and did not require explanation from Philadelphia; and (4) he routed the Bureau letter 1/19/55 to Assistant Director Mohr for approval solely because said letter also granted authority to Philadelphia to utilize the services of a Ukrainian-speaking Agent of the Washington Field Office to assist in conducting interviews in the Philadelphia territory.

CONCLUSION: (1) That SA report 12/31/	
and improperly included data not p	ertinent to
instant investigation, which should have been s	et forth in a
separate report on subject's wife; (2) responsi	bility for
the inaccuracies cannot be definitely resolved	in view of

explanations and recommendations covering administrative action for the inaccuracies in SA report, Philadelphia's failure to follow existing Bureau instructions governing the submission of amended pages, the improper inclusion in Agent Price's report of material not pertinent to said investigation and Philadelphia's failure to bring same to the Bureau's attention separately; (8) Supervisor in Charge Meehan, Section #1 Man Donahoe, Supervisor in Charge and Mr. Scatterday should have seen to it that appropriate explanations and recommendations were requested of Philadelphia; and (9) Assistant Director Mohr's review of said Bureau letter to Philadelphia was solely for the purpose of concurring in the authorization granted Philadelphia to use the services of a Ukrainian-speaking Agent from the Washington Field Office for interviews in the Philadelphia territory; it does not appear that Mr. Mohr should be considered responsible for the above-indicated weaknesses in the reporting by Philadelphia. RECOMMENDATIONS (1) Stenographer Philadelphia.... No action In view of impossibility of clearly fixing reporting inaccuracies as due to erroneous transcription. (2) SA Philadelphia....censure....for (a) including in his report of 12/31/54 material not pertinent to instant investigation; (b) not calling same to Bureau's attention by separate communication; and (c) failure to follow existing Bureau instructions governing the submission of amended pages in the preparation of his rough draft of Philadelphia letter 1/10/55. **b**6 (3) Supervisorcensure.....for (a) failure to be consistent in the changing of "Confidential Informant T-1" to "Immigration and Naturalization Service at Philadelphia," having made such change on page 5 of SA report but not on page 20; (b) failure to delete from said report

Dear Mr. Belmont:

I have very carefully considered the results of a survey recently conducted by the Training and Inspection Division into the handling by the Domestic Intelligence Division of changes made in investigative reports previously submitted to the Bureau. I have noted that personnel under your supervision have not been following existing instructions and insisting upon amended pages of reports being submitted by cover memoranda with explanations of personnel responsible and recommendations of the Special Agents in Charge as to any necessary administrative action. You have advised that the Domestic Intelligence Division complied with these instructions only if the substance of the case was affected and the errors were serious enough to require administrative action notwithstanding the fact that I never authorized any such exceptions.

I want you to realize I am serious in my determination to put an end to the errors occurring both in the field and at the Seat of Government. I shall further insist that personnel sunder your supervision carry out my instructions in this regards so that there will be no further reason for me to call your attention to such a matter.

PERSONAL AND CONFIDENTIAL

Mr. Alan H. Belmont Federal Bureau of Investigation Washington, D. C.

9-26-91 SDP/ISR

Dear Mr. Belmont:

I want to take this means of expressing my displeasure with the ineffective functioning and delay which occurred in the Domestic Intelligence Division in connection with the handling of a letter dated January 24, 1955, from the Assistant Commissioner of the Immigration and Maturalization Service. I have noted that this letter was received in the Domestic Intelligence Division on February 4, 1955, and was not handled to completion until Pebruary 18, 1955, and there appears to be no justification for the delay which occurred.

Moreover, I am concerned with the incomplete explanation which you furnished to Mr. Boardman in your memorandum of Morch 1, 1955, wherein you pointed out that the proposed letter to all Special Agents in Charge based on the Assistant Commissioner's letter was first received in your office on February 16, 1955, and you did not mention that the incoming document was first received in your division on February 4, 1955.

I want to impress upon you and your subordinates the absolute necessity for the prompt and efficient handling of matters of this nature. I shall expect you to insure that in the future personnel under your supervision carry out their assignments more efficiently so that there will be no further such instances of delay on their part.

SUBJECT:

IMMIGRATION AND NATURALIZATION SERVICE - REORGANIZATION

Dome to Intelligence Division

BACKGROUND

Letter from Assistant Commissioner, Immigration and Naturalization Service, dated 1/24/55, received at the Bureau 2/4/55; received Liaison Section 10:19 a.m., 2/4/55; received Internal Security Section, Domestic Intelligence Division, 12 noon, 2/4/55. Memorandum of 2/16/55 from Belmont to Boardman, to which was attached a proposed SAC Letter, received in Director's Office 2/28/55. Director stated he would like to know why it took two weeks to get this matter through.

FINDINGS

Indexing of 1/24/55, received Internal Security Section 12 noon, 2/4/55; Supervisor T. D. Rushing of Internal Security Section claims he received it 2/7/55; reported it as delinquent 2/9/55; dictated on it 2/10/55; Rushing claims he could not dictate on this matter until 2/10/35, because of the press of other matters, general duties of his desk; typed 2/14/55 and revised same date per instructions of wesers. V. P. Keay and L. V. Boardman; retyped 2/16/55 and received by Mr. A. He Belment at 11:51 c.m. that date; forwarded to Beardman and received by him 9:26 c.m., 2/17/55.

2. The memorandum was returned by Boardman for deletion of a paragraph and received by Belmont 9:18 a.m., 2/18/55; corrected and returned to melmont by 5 p.m. name date; received in Mr. Boardman's office 9:25 a.m. the next worker which was Monday, 2/21/55.

In accordance with existing procedures boardman routed the memorandum and proposed SAC Letter to the Francisco and Inspect on Division where it was received at 3:35 p.m. on George Washington's birthday, 2/22/55; Mason read it that afternage and metally that under the proposed procedure the FBI cannot det to des to certain files of Immigration and Naturelization Self-Major the Resemble No. Genter where such files are maintained in the proposed procedure.

weald require the Records Center to forward the Immigration and Naturalization Service file to the District Office of Immigration and Naturalization Service to be ultimately made available to the FBI. Mason cheaked with Mr. Rosen and pointed out that there is the possibility of serious delay in connection with the Applicant or Security of Government Employees Programs. For example, if the Mobile Office of the FBI has need for one of the named files it would have to communicate with the Miami FBI Office which, in turn, would consult the District Immigration and Naturalization Service office in Miami and Immigration and Naturalization Service would communicate with the Records Center in a distant state retaining the file and ask that the file be mailed to Immigration and Naturalization Service in Miami so that, in turn, Immigration and Naturalization Service in Miami could make the information in the file available to the FBI in Miami. It was not clear how widespread this procedure might be or how many files would be involved. Consequently, Mason on 2/22/55, routed the SAC Letter to SA Alvin Glenwood Gilliland with instructions to see him; Gilliland saw Mason the next workday, 2/23/55 and Mason instructed that this situation be brought to Belmont's attention to make certain that the procedure would not jeopardize our deadline Applicant-type cases.

4. SA Alvin Glenwood Gilliland of the Training and Inspection Division endeavored to contact Belmont on 2/23/55, but inasmuch as Belmont was in conference, Gilliland left word with Mr. Belmont's office to be called; at 6:25 p.m. Belmont not yet having called, Gilliland cancelled the call. In this regard we feel that Gilliland showed a lack of aggressiveness in that he should have presented his question to Inspector Keay or another representative of the Domestic Intelligence Division during the period of Belmont's unavailability.

5. On 2/24/55, Gilliland was on sick leave, but telephoned SA Dwight J. Dalbey of the Training and Inspection Division and requested that Dalbey handle the SAC Letter with Belmont; Dalbey agreed that he would; Dalbey had just taken over new duties the previous day in the Training and Inspection Division and the handling of SAC Letters was one of those duties. Dalbey took no action as to the SAC Letter on 2/24 and 25/55 (Gilliland was on sick leave both days), claiming press of other duties. On Gilliland's return to work the next workday, Monday, 2/28/55, he found the SAC Letter, brought it to Mason's attention and immediately clarified the situation; found out that the files referred to relate mostly to dead people, and the SAC Letter was received in Mr. Tolson's office at 3:25 p.m. the same day, 2/28/55.

There is positively no excuse for Dalbey's failing to take action in this matter when he had stated that he would.

	6. A procedure designed to prevent such a situation exists in the Training and Inspection Division in that Mrs. Grade GS-9, is required to submit a written report each	
	evening as to any unsigned SAC Letter on hand in the Division. There are clear instructions that unsigned SAC Letters are not	b6
	to be retained in this Division at the end of any workday; her reports for Wednesday through Friday, 2/23 - 25/55, claimed no

Dear Sir:

For inclusion in the fund to be paid to the designated beneficiary of any Special Agent of the FBI who has previously contributed to this fund and who dies from any cause except self-destruction while employed as a Special Agent, I am forwarding herewith (by CHECK - MONEY ORDER) the sum of \$10. payable to the Assistant Director, Administrative Division, FBI, to be included in said fund. Payment will be made for death by self-destruction after the Agent has been a member of the fund for a continuous period of two years. It is understood and agreed that the sum tendered herewith is a voluntary, gratuitous contribution to said fund which I understand is to be administered in the following manner.

The Director of the FBI will appoint a committee which shall consider all matters pertaining to the acquisition, safe keeping and expending of said fund, which committee will recommend appropriate action to the Director in pertinent matters. The Assistant Director of the Administrative Division of the FBI shall receive all contributions and account for same to the Director. Upon the death of any Special Agent who is a member of said fund the appointed committee will consider the case and submit a recommendation to the Director as to its conclusions. Appropriate instructions will then be issued to the Assistant Director of the Administrative Division, directing him to pay to the designated beneficiary the sum of \$10,000. Dear Mr. Belmont:

I am greatly concerned with the failure of the Domestic Intelligence Division to effectively supervise the Office of the Legal Attache in Mexico and the Mexican Border Coverage Program. It is obvious that you and employees under your supervision have allowed the Legal Attache's Office to eperate to suit itself and have permitted this important program to deteriorate. I want you to know that I am highly displeased with the completely lethargic attitude of the Domestic Intelligence Division in regard to this matter.

I shall expect you as Assistant Director in charge of the Domestic Intelligence Division to take immediate steps to insure the aggressive and efficient supervision of such important matters.

MEXICAN BODDER COVERAGE

Nichols Sizoo

Board man

Winterrowd Tele. Room

In connection with a memo from Mr. Belmont to Mr. Boardman 4-13-55, the Director expressed his extreme displeasure with the lack of aggressive supervision at the Seat of Government of the Mexican Border Coverage Program and the Bureau Office in Mexico City. The Director commented, "I can't too strongly stress my displeasure with the completely lethargic attitude of the Dom. Int. Div. which obviously has allowed this whole program to go to seed. Just who has been in charge of it?"

The attached memo 4-18-55 from Mr. Belmont to Mr. Boardman pointed out that the administrative aspects of the program have been superpised since its inception in the Liaison Section in connection with the Toreign Liaison Program. Inspector V. P. Keay was in charge of the Liaison Section until June, 1954, when SAR. R. Roach became Chief of the Section. SA Nathan L. Ferris has been supervisor in charge of the Felga Liaison Desk since December, 1948. Mr. Belmont and Inspector Teay have maintained over-all supervision of the entire Mexican Horder Coverage Program.

A Border Coverage Conference to speed up the program was held in January, 1955, and the Director instructed that the second Border Coverage Conference be held not later than June 1, 1955. The Domestic Intelligence Division has now advised that the second conference has been tentatively scheduled for May 23, 24, and 25, 1955.

Acheausea for May 23, 24, and 25, 1955.

Mr. Belmont is memo of 4-13-55 indicated it was not possible at the Seat of Government to estimate with relative accuracy the constant of security park in Metico and that statistics which would reflect current information about American Communists in Mexico are not kept. The Director fiderated that the Domestic Intelligence Division and not have this information fince the Mexico City Office held, been allowed to operate to suit in the Popestic Intelligence Division has now advised in the section with the submission of expiration relative to security, which pelative to merican section by Division has now advised in the populative to American Section by Didex subjects and American Populative to American Section in their countries in confunction with the regular semiannual accomplishments to be provided in the regular semiannual accomplishments.

effices have been instructed to submit immediately statistics in this regard as of 4-15-55.

Mr. Belmont's memo of 4-13-55 pointed out that the Legal Attache in Mexico should extend his security coverage particularly in the merthern part of the country near the border. The Director inquired as to why the Domestic Intelligence Division had not taken action to effect this. The Domestic Intelligence Division now advises that a Resident Agency was established in 1951 in Monterrey, 150 miles south of the border and two agents are assigned to this Resident Agency. Arrangements were subsequently made to have the Senier Resident Agent confer with representatives of the San Antonio Office to coordinate appirities along the border. In 1952, a Resident Agency was established at Guyras in the northwestern part of Mexico. This Resident Agency was closed when the Consulate at Guaymas was eliminated by the State Department and a Resident Agency was then established at Guadalajara. A pest coast road trip from this Resident Agency handles criminal and escurity work up to the border area and covers Bureau subjects who arrive in Mexico by the west coast highway.

The Domestie Intelligence Division also pointed out that an 2-3-55, the Legal Attache mas instructed to transfer an informant to Mueve Laredo from Newtoo/If a suitable one could be found, or to ascertain the identity of an individual in Muevo Laredo who would serve as a suitable informant. This matter was followed on 3-16-55. The Legal Attache has been instructed to draw up concrete plans for the further extension of his security coverage in northern Mexico.

Mr. Deardman recommended censure for himself, Mr. Belmont, Inspector Keay, and SA Deach and censure and probation for SA Ferris for their ineffective supervision of the Mexican Border Coverage Program.

DECT: SPECIAL AGENT NATHAN L. FERRIS

Supervisor in Charge FOREIGN LIAISON UNIT,

Liaison Section,

Domestic Intelligence Division

GS-14, \$9800

1565 SDP/KSP

9-26-9

With reference to the delay in the submission of an analysis of the effectiveness of the work of Supervisor Ferris, the Director commented, "I asked for this at least a week ago. Why is it that it has taken so long?"

I received a memorandum dated 5/5/55, authored by Section Chief Roach, which purported to be an analysis of Ferris' work. In my opinion the analysis was inadequate, because it was merely an appraisal of the effectiveness of his work and did not reflect that an actual analytical review of his performance had been made. I discussed this inadequacy with Belmont on 5/5/55 and returned it with specific instructions that his work actually be reviewed.

I next received a memorandum dated 5/9/55, prepared by Inspector Keay, which reflected the results of an examination of the files and projects handled by Ferris. It was Keay's conclusion that Ferris should remain on this desk for a 60-day probationary period, at the end of which time a reanalysis should be made of his work to see whether he had exhibited the aggressiveness needed to make the Mexican Border Coverage Program effective. On the basis of the information available to me I felt Ferris should be removed, and requested further consideration by Inspector Keay.

I received the attached hemoth dum dated 5/12/55 from Belmont which recommended the namewal of Ferris from the Foreign Liaisand desk and his transfer to the Espionate Section. This recommendation did not make sense to me because, if it was concluded that he should be removed from the Foreign Liaison deskip it was proposed logical to have him function as a supervisor in the Espionage for Section. I asked Belmont them he or Keay had interviewed ferris and pinpointed to Ferris his shortcomings, which caused the recommendation for bremound. Ferris had not free for interviewed for the recommendation for bremound.

WEST OF TOPING

I had a very frank discussion with Ferris, from approximately 7:30 until 10:30 p.m., 5/12/55. Several points were developed during this discussion, which are briefly summarized hereinafter.

Approximately 6 months after the Mexican Border Coverage
Program was instituted, Ferris became supervisor of the Foreign
Liaison desk, one of the duties of which was this program. Ferris
points out that the Mexican Border Coverage Program was instituted
with a high degree of secrecy because of lack of FBI jurisdiction
to develop informant coverage in Mexico, this being within the

Initially, only one agent per border office was assigned to this program. In 1949 the San Diego Office was authorized to assign one additional agent, and in 1951 additional agents were authorized for assignment in the San Antonio Office because of the length of the Mexican border and the obvious need for greater coverage.

Ferrie admits lack of foresight and planning in not recommending removal of some of the secrecy "wraps" from this program to permit rectifying admitted insufficiency of coverage. I am compelled to conclude, after discussion with Ferrie, that this blame should also be borne by Keay and Belmont.

Upon questioning Ferris as to whether he recognized the inadequacy of the coverage and made any effort to correct these inadequacies, Ferris pointed out that he had written numerous letters to the field pointing out their inadequacies. I told Ferris this was obviously ineffective paper supervision, and inquired whether he had ever recommended any administrative action because of these shortcomings. He stated he had not. He pointed out, however, that each time a border office SAC came to the seat of government for conference, he prepared a memorandum for Belmont, pointing out the inadequacies and making recommendations for improvement of the coverage. He stated these were informal memoranda for Belmont's use. I asked whether he had any tickler copies and he stated most of them had been destroyed, but did exhibit ticklers of four such memoranda still in his possession.

I reviewed these ticklers and find that one prepared by Ferris in March 1954 for Belmont's use in conferring with SAC G. B. Norris, contains such statements as "It appears that the SAC has paid relatively little attention to this project up until the very recent past." The memorandum, after pointing out that the August semiannual report of developments

in this project, due August 1953, was not submitted until December 1953, further indicated that the lack of adequate attention was further borne out by the fact that the Phoenix Office had only one informant utilized in connection with this program and that this informant was of very limited value. Ferris then has the statement, "This is considered to be a very unimpressive showing, particularly considering the fact that two agents are authorized to work on this project." Ferris continues in his memorandum for two pages to point out the inadequacies and that Phoenix should be instructed to take immediate effective steps. Certainly in this memorandum Ferris clearly pointed out to Belmont the inadequacies of the program in so far as the Phoenix Office was concerped.

In an informal memorandum for Belmont dated 5/21/53, to be used by Belmont in conferring with SAC N. P. Chiles of San Antonio, Ferris in three pages points out weaknesses in the coverage maintained by San Antonio, including lack of informants. What action did Orlinoux take:

Ferris, in an undated memorandum for Belmont's use in a discussion with SAC Galen Fillis of San Diego, observes that San Diego has been making very good progress, and makes certain observations to insure that San Diego will further increase its efforts.

In another similar memorandum for Belmont's use in conferring with SAC C. W. Brown of El Paso (undated, but prepared Ferris believes in 1954), Ferris points out generally the improper approach being taken by the El Paso Office in securing coverage and gives observations as to the proper approach to be made.

I asked Ferris many questions concerning this program and gained the distinct impression that Ferris appears to be very conversant with the situation, is possessed of considerable enthusiasm concerning the program, but has not obviously translated that enthusiasm into aggressive action. However, as indicated in the afore-mentioned memoranda cited, he certainly pointed out to his superiors some of the shortcomings of the program.

Ferris did not seek to excuse his lack of aggressiveness, nor did he seek to shift the blame to Belmont and Keay. He was very forthright in his answers to some very frank questions I posed to him. I was forced to the conclusion that if I were to recommend Ferris' immediate removal from supervisory duties I would in effect be making him the "goat" in the situation.

Ferrie informe me that if the Director decides that he should be permitted to remain on the deet, he will aggressively ineist that the border offices and the affice of the Legal Attache in Mexico City perform effectively, and he will recommend appropriate administrative action for any deficiencies noted.

I have some doubts as to whether Ferris can suddenly acquire an aggressiveness not previously demonstrated by him since he took over this desk in December 1948. However, I do feel that the lack of aggressiveness in this entire program is not shared solely by Ferris, but by Roach, Keay, Belmont and myself.

Belmont, in his attached memorandum dated \$\frac{12}{55}\$, points out that Ferris' duties on the Fereign Liaison Desk, in addition to handling the Border Coverage Program, consist of supervision of the effices of the Legal Attaches in Nexico City, Havang and Rio de Janeiro, administratively, and Belmont points out that the investigative cases in these countries are handled by substantive supervisors. He also has duties involving all offices abroad, such as war plans, procedural matters common to all offices, home leave, security and effectiveness of communications, and inquiries from other parts of the Bureau. Belmont points out that the volume of the work on this desk is extremely heavy. Belmont observes that the quality and effectiveness of the work of Ferris, for an extended period, on an over-all basis, seems good, with the exception of his handling of the Border Coverage Program.

BECOMMENDATION: V. P.XIZERY L. V. XBORK dank

It is recommended that Ferris remain on the Foreign Liaison Desk for a period of 60 days, after which time his work is to be reassessed, with the view to determining whether he has afforded his work the aggressive attention essential to insure scoess of the Mexican Border Coverage Program.

I have to agree, since the beame seems to largely rest with his superiors. what assurance is there that these thofficials can administer this program?

Reference is made to my memorandum dated April 13, 1955.

In accordance with the Director's instructions that the second border coverage conference be held not later than June 1, 1955, instructions have been sent to the field advising that the conference has been tentatively scheduled for May 23, 24 and 25, 1955. The border effices and the Legal Attache's office have been instructed to submit their suggestions for the agenda for that conference and the agenda will be drafted as soon as those replies are received.

In connection with the submission of statistics relative to security subjects, all foreign offices have been instructed to submit such statistics relative to American Security Index subjects and American Espionage subjects under investigation in their countries in conjunction with the regular semiannual accomplishments reports. In order that we may have on hand immediately an up-to-date set of such figures concerning security investigations in our foreign offices, those offices have been instructed to send in at once those statistics as of April 15, 1956.

The Director inquired as to why the Domestic Intelligrace Division has not taken action to effect extension of the Legal **tache 's security coverage in the northern part of Mexico. The Respent Agency /7 in Monterrey was opened to extend our coverage in northern Mexico.in 1951. Montermey is the largest city in that part of Mexico, we have considerthe work there and a consulate exists which serves as a cover for our Agents_although it is 150 miles south of the bordefilla We now have two Epents assigned to Monterrey. Arrangements were subsequently made for the Serior Resident Agent at Monterrey to confer periodically with the SAC at-San Antonio and with San Antonio Agents handling investigations along the border in order that there can be coordination between the security investigations handled in the northern part of Mexico out of the Manterrey Resident Agency and those of the border coverage Agents in the San Antonio Division. In 1952 a resident agency was also opened at Guaymas, Mexico, to handle coverage in the months of the That resident agency was closed when the Consulate at Guaymas was eliminated by the State Department and we, therefore, established a resident agency at Guadalajara out of which the west coast road trip territory is handled to cover criminal and security wank up to the WLF:mlp

(5) 1 - Ur. Boardm**a**n

1 - Mr. Halmont

l - Ur. Ferris l - sec<u>t. **tiek**.</u> border area and to cover the Bureau subjects who arrive in Mexico by the west coast highway.

On February 8, 1955, the Legal Attache was instructed to transfer an informant to Nuevo Laredo from Mexico City if a suitable one could be found, or to ascertain from available informants in Mexico City the identity of an individual in Nuevo Laredo who would serve as a suitable informant. The Legal Attache was again followed on this matter on March 16, 1955. The Legal Attache has likewise been instructed to draw up concrete plans for the further extension of his Up security coverage in northern Mexico.

Mexico City is the focal point for security investigations in Mexico, as the headquarters of the Communist Party of Mexico and the Soviet Embassy are located there. We have built up our coverage in Mexico City over a period of several years and last fall the Legal Attache was authorized to begin an intensified coverage of Soviet activities in Mexico City. This coverage relates not only directly to subversive activities in Mexico City but since Mexico City is the center of Communist and Soviet activities it is closely related to security investigations along the border.

The question of security coverage by the Legal Attache's office in the northern part of Mexico was included on the agenda of the border coverage conference held at El Paso in January, 1955, and it is being placed on the agenda of the Nay, 1955, conference and it will be given primary consideration by that conference.

The Director inquired as to who has been in charge of the border coverage program. In answer to the Director's question, this is to advise that the program has been handled in the Domestic Intelligence Division. The administrative aspects of the program are supervised in the Liaison Section, and have been since its inception, in connection with the Foreign Liaison program. Inspector V. P. Keay was in charge of the Liaison Section until June, 1954, when SAR. R. Roach became Chief of the Section. SA Nathan L. Ferris has been the supervisor in charge of the Foreign Liaison Desk. I and Inspector Keay continue to maintain over-all supervision of the entire program.

#Since December, 1948.

MR. NICHOLS

MR. MOHR

DOMESTIC THTE WARE THE HARBO

in regard to the attached memorandum of May 13, 1955, from Mr. Belment to Mr. Beardman, comparing the handling of the Border Coverage Program, it is quite obvious from Mr. Belmont's memorandum that there has been too much left to assumption and too little nailed down as specifics.

As regards Supervisor Ferris, it is obvious that he has not measured up to the responsibilities assigned him, but he certainly should not be made the "goat" when those shows him with equal if not greater responsibility, namely, Messrs. Reach, Keny, Belinbat, and Beardman, completely ignored their responsibilities.

Letters of censure, if not already sent, should be addressed to Messrs. Ferris, Roack, Keay, Belmont, and Boardman, as to the gross mishandling of the Mexican Border Coverage Program.

It is my desire that henceforth such conferences, as Mr. Belmont states he has held with various Special Agents in Charge, be reduced to writing and be confirmed by written instructions to the Special Agent in Charge where it is necessary. As the situation exists now, the Inspectors, who are inspecting the border offices looking into the Berder Ceverage Program, find little or no evidence of instructions or proper follow-up from Washington and there is no record here that such instructions were orally issued to the respective Special Agents in Charge when they were here for conferences.

am frank to admit that I am concerned if he handled that project in the same indifferent manner as he handled the Border Goverage Program. Here again, Supervisor Ferris may not alone be to bitune if the fereign liaison work has been improperly handled because the other afficials above him in the Domestic intelligence Division may be as cutyable in this respect as they were in the handling of the Border Coverage Program.

SUBJECT: SUPERVISION OF TOTEIGN LIAISON DESK

BY SA NATHAN L. TERRIS

Y Domestic Intelligence D Background of Ferris and Duties:

Entered on duty 11/3/30; appointed Special Agent (Limited) 10/15/41; appointed Special Agent 1/16/43 and assigned Domestic Intelligence Division; subsequently assigned to Kexico City; Santiago, Chile; Mexico, and Domestic Intelligence Division. Currently in charge of Foreign Liaison supervision and has one other Agent subordinate to him. GS-14, nonveteran. Placed on probation 4/28/55 for ineffective supervision of Communist informant coverage along the Mexican border. file shows Ferris is sonsidered as one of the most experienced Softempholees in foreign Liaison operations; adept at handling intricate and troublesome problems; recommended for further administrative advancement (3/31/55). Censured 3/22/55 for inaccuracy in a memorandum; commended 12/9/54 for handlin visit of Mexican Attorney General to Washington; commended 3/31/54 for handling visit of Exban official. Numerous statements on file that Ferris is a valuable man on his present assignment. Inspector sanalysis shows Ferris to be singularly qualified for foreign liaison supervision by virtue of most experience, knowledge and temperament

Personal duties of Ferris ensist of: supervising Mexico City (14 Agents, 11 Stend Claves); Havana (3 Agents, 2 stenos); Rio de Janeiro (1 Agent, 1 steno); supervises one other Agent assigned to foreign liairin work that; foreign name checks and investigations for police and intelligence agencies; Itaison foreign, police and intelligence authorities; foreign visitors at SOG; quordination by examining all outgoing and incoming mail tel in framilegal attaches.

Ferris acts, as a general, poordinator in that investigative case O 3 are Supervised by substantive supervisors; personnel matters are supervised by Administrative Division; supplies and finances are supervised by Administrative Division. Generally cooking,

Mr. Boardman

the procedure is that Ferris keeps generally informed of activities in each of the offices but the primary supervisory responsibility rests with other divisions at the SOG as to each phase of activities except: Ferris personally supervises Communist coverage along the Mexican border; authorizes the use of informants in the three offices; confers with foreign liaison Agents when at SOG; handles inquiries from ether parts of the Bureau about liaison operations; prepares budget and annual report material; War Plans of all effices; home leave regulations; special allowances and legislative benefits to employees abroad; security and effectiveness of communications channels with foreign offices. Ferris is responsible for providing training to new employees going on foreign assignment and making appropriate arrangements such as passports, inoculations and shipment of effects. He handles field relations with other agencies whenever they relate to foreign matters.

Ferris' overtime during the past six months averaged 3 hours, 35 minutes daily.

Weaknesses of Ferris, Past and Present:

1. Daily Bureau records show that until June, 1954, Ferris, as supervisor in charge of foreign liaison, had not demanded prompt repayment of funds advanced to employees on foreign assignment. Some repayments had not been made even after a lapse of a year; since June, 1954, these accounts have been handled properly. Assistant Director, Belmont, notes that he does not consider the lapse of time in repayment of fund advances as reflecting upon the quality of supervision by Ferris, but rather that an erroneous policy had been followed prior to June, 1954, as the Bureau's policy changed at this time.

Delays in dispatching beere subsequently corrected according to Eureau records and current inquiry.

3. The Legal Attache at Rio de Janeiro from 1,50 - 1955 was Martin Carlsen; replaced in April, 1955, because of ineffective operations. An inspection was made at Rio by Inspector B. C. Brown and a summary of his findings submitted 10/28/54 recommended replacement of Carlsen. Six-months' summaries which had been submitted by the Legal Attache at Rio previously reflected ineffective operations. Ferris recognized inadequacies of Rio Legat and same called to Rio office's attention 9/20/54. Although Ferris was not responsible for the supervision of the Rio office at that time, he was supervisor in charge of all the foreign liaison of fices, and it appears that he should have recognized the

Who was refugille?

(U)

deficiencies sooner. Assistant Director Belmont points out that during 1954 the Rio office was supervised by Saland had primary responsibility under Ferris, the Supervisor in Charge. Domestic Intelligence Division submitted a memorandum 10/27/54 recommending the removal of Carlsen as Legal Attache in Rio

4. Inspection of Mexico City Office, May 1955, reflects delinquencies over an 8-month period considered prior to May 1955, had ranged from a high of 44% in December 1954 to a low of 33% in January 1955. Ferris followed up the administrative report of February by letter instructing efforts should be made to reduce the delinquencies. This was by letter 4/26/55. Assistant Lirector Belmont points out although the Lelinquency figures would be considered high for domestic offices, they are not considered unnecessarily high for a foreign office as a foreign office rust cover leads through informants.

5. Inadequacies in Loverage along the Mexican border for which Ferris is personally responsible have been previously adjudicated by the Bureau and Ferris was censured and placed on probation.

6. Detailed analysis of work of Ferris including review of 72 cases (23 name checks and 43 police cooperation or investigative matters) during current inspection revealed no delinquencies or delays. Analysis of other phases of supervision of Ferris shows matters well handled.

Performance of Rio de Janeiro, Havana, Mexico City, which offices are Supervised by Ferris:

Statistical Accomplishments for Rio, Havana and Mexico City for the Last Six Months of 1954

	<u>Recoveries</u>		<u>Fugitives</u>

Mex. City	34	\$68 , 52 0	arepsilon1	39,75		

Inspector detected no delinquencies in performance or supervision of Rio, Havana, or Mexico City attributable to Ferris.

Conclusions as to Performance of Supervisor Ferris:

Relinquencies mentioned hereinbefore have been previously known to the Bureau; no new ones developed during current inquiry. Inspector evaluated all phases of work of Ferris and found that Ferris is singularly qualified for his present assignment; shows enthusiasm, excellent working knowledge of liaison operations; annears to be competent. Ferris assures more vigorous supervision and attention to details in future to eliminate recurrence of type of weaknesses which have occurred earlier. As to the weaknesses of Ferris regarding border coverage, Inspector holds Section Chief Roach, Division #1 Man Keay, Assistant Director Felmont and Assistant to the Director Boardman jointly responsible with Ferris; Roach, Keay and Belmont were aware of the weaknesses but did not take the necessary steps to have them corrected with regard to Border Coverage. Deficiencies on the part of these superiors of Ferris have already been adjudicated.

RECOMMENDATION: R. R. Y. H.

1. Ferris is currently on probation and the Director has authorized continuation of Ferris on the Foreign Liaison / Desk for a period of 60 days pending a check as to other phases of Ferris work. It is recommended that Ferris be continued

SUMMARY

Background of Ferris

Ferris EOD 11/3/30; appointed Special Agent (L) 10/15/41; Special Agent 1/16/43; supervisor since 1945. He is GS-14, non-veteren. Superiors have described him as conscientious, has depth in handling intricate and troublesome problems, is one of the most experienced Seat of Government employees on foreign liaison operations and recommended for further administrative advancement (3/31/55).

Statistics

He supervises three offices, Rio de Janeiro, Mexico City and Havana. Accomplishments for those offices for the last six months of 1954 are as follows:

	<i>Recoveries</i>			Fugitives		
	Autos	Money Value	Located	Delinquency (4-30-55)		
Rio	0	0	0	42.86%		
Havana	1	\$ 1,200	3	<i>35</i> , <i>11</i>		
Mex. City	34	\$68,520	81	<i>3</i> 9. <i>75</i>		

Inspector detected no delinquencies in performance or supervision of Rio, Havana, or Mexico City attributable to Ferris.

Statistics show very productive results for the first six months of the fiscal year in all foreign liaison offices, 131 fugitives located, recoveries totaling \$153,312. Statistics are made primarily in Mexico City Office which has functioned effectively in locating important fugitives, including Gus Hall, and a Smith Act subject for the San Juan Office.

Name checks and foreign police inquiries handled by the Foreign Liaison Unit amount to an average of 250 per month.

Liaison Desk Supervision

(See next page)

He has been on the Foreign Liaison Desk since 12/15/48. He has been Supervisor in Charge of the Foreign Liaison Desk since September, 1951.

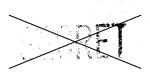

Seventy-two cases were reviewed by the Inspector which had been handled personally by Ferris. These 72 divided as follows: 29 name checks, 43 individual cases - police cooperation and investigations. Accuracy of information reviewed in 17 cases. No delinquencies noted concerning handling of 72 cases. No instances of delay noted.

1. Until June, 1954, Ferris had not demanded prompt repayment of advances of funds to employees on foreign assignment. Prior to that time advances in some instances were not repaid for over one year after they were granted. In June, 1954, five employees were delinquent in fund-advance repayments. One from Legat in Paris. Four from Mexico City office. One employee in Mexico City office, William T. Moore, Clerk, received advance in January on transfer to office and requested return to states and resigned. Advance account settled in Sept., 1954.

Since June, 1954, 6-month rule in effect for repayment of fund advances by Foreign Liaison offices. Ferris has followed this matter closely since June. No employees now in Foreign Liaison delinquent in repayment of advances. Since June, Assistant Director Belmont states he does not consider this as a reflection on loose supervision by Ferris but that it reflects before June, 1954, an erroneous policy had been followed. Bureau's policy as to the 6-month rule was clarified at that time.

 (\mathbb{U})

- 2. Ferris was censured in 1950 for weakness in procedure in dispatching These memoranda had been held for three weeks.
- 3. The Legat from 1950 until 1955 at Rio de Jameiro was Martin Carlsen. He was replaced in April, 1955, because of ineffectiveness. . A review by the Inspector of the 6-month summary report of accomplishments from the Rio de Jan elio office reflected that the delinquency of cases had increased, investigative coverage was insufficient, and the summary named individuals who were contacts of the Legat but the summary did not reflect any result of these contacts. Although Ferris was not personally supervising Rio during 1954, he was Supervisor in Charge of the unit and should have recognized the incomplete 6-months' summaries which had been furnished by the Rio office. SA was immediately responsible for supervising Rio and the incomplete summary of 7/1/54 was called to Rio Legat's attention 9/20/54. Inspector B. C. Brown made an inspection of the Rio office and in his summary 10/28/54 recommended Carlsen be replaced. A memorandum from Domestic Intelligence Division 10/27/54, made a recommendation to replace Carlsen.

4. Inspection of Mexico City, May, 1955, reflects office (8 mos.) delinquencies range from high of 44% to low of 33% in January. The only follow-up of the general delinquencies from the Bureau (The Foreign Liaison Desk) relates to the February delinquency report which was dated 4/26/55. Assistant Director Belmont states he does not consider present delinquency figures in Mexico City as unnecessarily high as work must be done through informants and office cannot be gauged by domestic delinquency figures.

Responsibilities of Superiors:

Inspector asked Ferris if his superiors had ever pointed out to him that any of the programs handled on the Foreign Liaison Desk were improperly handled or receiving inadequate attention. Ferris stated he had discussed procedures to improve programs handled on the Foreign Liaison Desk but no particular program had been pointed out as being inadequate. He said his superiors had pointed out inadequacies concerning the informant coverage along the Mexican border.

Messrs. Roach, Keay and Belmont were asked by the Inspector if they considered Ferris had inadequately handled duties assigned the Foreign Liaison Desk. Keay and Belmont stated that they had not considered Ferris derelict in his supervisory duties and responsibilities. Both pointed out they would have noted such deficiencies in his personnel ratings if they had considered his work unsatisfactory. Section Chief Roach stated he considered Ferris to have been competent and aggressive as a supervisor in all types of the Foreign Liaison Desk's operations with the exception of the Border Coverage program. Each of Ferris' superiors stated they shared the responsibility for inadequacies concerning the Border Coverage program.

Responsibilities of Ferris:

Responsibilities of Ferris were outlined in a memo Belmont to Boardman 5/9/55 as follows:

"Legal Attache Office Supervision of Mexico City (14 Agents, 11 Steno-clerks), Havana (3 Agents, 2 Stenos) and Rio de Janeiro (1 Agent, 1 Steno).

Out of 1297 items of outgoing correspondence Ferris handled 179 or 14%. Deadlines were set in 34 instances or 19% of these handled by him. Review shows no action warranted. Administrative action was recommended and approved in three instances by memorandum from Ferris regarding improper handling of Border Coverage Program.

There are presently 2 supervisors in the Foreign Liaison Unit, and N. L. Ferris. Ferris supervises the three Latin American offices, Rio de Janeiro, Havana and Mexico City. The latter two offices are investigative in scope and production primarily, of statistics, is made in these two offices. The remaining 8 offices are principally of a liaison character.

Ferris supervises War Plans in all foreign liaison offices. Delinquencies in not promptly sending War Plans by Legat, Rome, and Legat, Mexico City, were pointed out. File reflects plans have been forwarded from these two Legats and Ferris set deadlines in order that these two items would be received without undue delay.

As of May 1, 1955, there were 885 cases pending in the foreign offices supervised by Ferris; however, most of these cases are of a substantive type and are therefore supervised by the substantive supervisor and Ferris has only coordinating responsibility.

The volume of the work is reflected in part from a review of the abstracts of incoming communications from foreign liaison offices. For the 4-month period January 1, 1955, to May, 1955, figures are as follows:

(See chart next page)

Observations Concerning Qualifications of Ferris:

Ferris' overtime in past 6 months has amounted to 3 hours 35 minutes daily. He has been continuously described in performance ratings as devoted, conscientious, loyal, adept in handling intricate and troublesome problems, and singularly qualified for handling foreign liaison matters. He has been recommended for further administrative responsibilities.

It will be noted the average clerical salary in fereign offices amounts to \$4738. The Agent salary average in foreign offices amounts to \$10,018 annually. The average salary

of Agents and stenos at the SOG on 4-30-55 was as follows:

Agents GS-13 \$8980 Stenos GS-4 3502.

During the fiscal year 1954 in addition to salaries \$56,035 was paid to employees on foreign assignment for quarter's allowance. Total clerical salaries in Foreign Liaison offices is \$113,747. Total Agent salaries in foreign Liaison offices is \$300,548. Total salaries paid in foreign liaison offices is \$414,280.

Foreign Liaison Desk points out that grade and salaries of clerical employees approved by Job Description sheets. Offices having one Agent and one stenographer require that steno act as receptionist; chief clerk; typist; code clerk and particular reliance must be placed on the employee in matters concerning security of documents and reports. Salaries paid to personnel in foreign offices considered by Liaison Section as comparable to other Government agencies.

PERMANENT BRIEF OF SA NATHAN L. FERRIS ENCLOSED.

May 3, 1955 PERSONAL AND CONFIDENTIAL

Mr. Alan H. Belmont Federal Bureau of Investigation Washington, D. C.

1565 SDP/115R

Dear Mr. Belmont:

I have carefully considered the facts relating to a proposed letter to all Special Agents in Charge regarding revised thumbnail sketches on the and the which had been prepared by an agent under your supervision. I have noted that you reviewed and approved this proposed letter although the sketch on the concealed the identity of an individual who had furnished information pertaining to that organization notwithstanding existing instructions that sources of data utilized in such sketches be set out.

I cannot emphasize too strongly the need for the highest degree of care in the preparation of letters of this nature. Accordingly, I shall expect you to see to it that personnel under your supervision comply fully with existing instructions in the future preparation of such letters.

This action does not appear to warrant censure; however, if such is desired all involved in handling this matter should be censured.

The New York Office has submitted a revised thumbnail In the new sketch, no source of the address is set out. This revised sketch is included in the proposed SAC Letter attached. Manual changes are also attached. In the SAC Letter and Manual change the field is being instructed that in thumbnail sketches submitted in the future, not to attribute information such as the address of an organization to a source, but to furnish the source in the letter transmitting the sketch to the Bureau. Also, where possible, information regarding formation and/or dissolution of an organization should be attributed to corporation. tax or other official records rather than individuals or informants. This will eliminate use of unnecessary T symbols and at the same time enable us to maintain a record of sources not shown in the sketches. The field is also being instructed to submit with the sketches a statement to the effect that all T symbols utilized in the preparation of the thumbnail sketches are absolutely necessary. In addition, the field is being instructed to adhere to instructions set out in SAC Letters 55-20 and 55-26 re characterizations of sources utilized in these sketches, i. e., they are to no longer state an individual or informant if of known or unknown reliability as in the past but should follow the new procedure. With the revised thumbnail sketch, the New York Office submitted explanations of John T. Murphy, the Agent who prepared the sketch, and Bernard J. Connell, the approving supervisor. explanations were that whose identity was concealed by use of a T symbol requested that his identity be concealed and that in accordance with prior Bureau instructions b7D

RECOMMENDATIONS:

(1) This matter was handled by the New York Office and at the Bureau in accordance with existing Bureau instructions relating to whumbnail sketches. These instructions are being changed so that sketches submitted in the future will contain no unnecessary T symbols. In view of the above, it is recommended that no administrative action be taken in this matter.

(2) If you approve, it is recommended that the attached SAC Letter be sent to the field.

(3) If you approve, it is recommended that the attached manual change be furnished the field.

ADDENDUM: LVB

Since we have been emphasizing necessity of eliminating every possible "T" informant, failure to as so in this case warrants censure for Henry, Cleveland, Keay and Relmont. No recommendation as to Dalbey and Mason.

Dear Mr. Belmont:

I have noted with great concern that on May 9 and 10, 1955, a Special Agent under your supervision improperly executed the sign-in and -out register he uses in that he was observed on both days to be engaged in personal affairs at a place remote from his normal work area after he had signified his arrival to assume his official duties. There is no justification for his failure to comply with existing Bureau regulations in these

Accordingly, I shall expect you to take proper measures to see to it that there is no repetition of such delinquencies on the part of personnel under your supervision.

Mr. Alan H. Belmont Federal Bureau of Investigation Washington, D. C.

Dear Mr. Belmont:

9-26-91 MSR

I have carefully reviewed the facts relative to the supervision of the Intensification Program, both in the field and at the Seat of Government. As Assistant Director in Charge of the Domestic Intelligence Division you are charged with the responsibility for the over-all supervision of this program. It is evident from the basic weaknesses in this program recently detected in the New York Division that you have not properly discharged your responsibilities in this regard.

Accordingly, I shall expect you to redouble your efforts to see to it that deficiencies of the type referred to above will not recur.

Fr. Hennrich was in Now York for an Espienage Conference on February 17 and 18, 1955. He remained over on Saturday, February 18, and visited several of the lookoute being maintained by the New York Office and observed the operation of some of the surveillances.

Mr. Hennrich was in New York again on March 30 and 31 and April 1, 1955, with the specific objective of conducting a survey as to whether a saving of man power could be obtained in the program; whether there was a need for redirection of the expenditure of man power within the program; and whether the over-all result of the program justified the man power assigned to it. O'DONNELL'S LETTER

As stated above, each specific charge in O'Donnell's letter was answered in memoranda furnished to Mr. Mohr over the past week end. Basically, however, O'Donnell is charging:

(6) That the Bureau may have misinterpreted the information from New York reporting this incident, because the Bureau wanted to misinterpret the New York information.

O'Donnell's letter is a combination of fact, misinformation, and self-servina insinuations. Certainly, O'Donnell clearly shows

The Director inquired why a memorandum was not sent to Olney on April 28, following my talk with Olney. I called Olney on this matter late on the afternoon of April 28, in order to try to force an issue as we could not seem to get an answer from the Department. He said the Department was studying it and that we would be advised prior to May 3. I stated in my memorandum of April 28, that we would follow again with the Department on Friday morning, April 29. This was a question where time was of the essence and I was trying to force the issue. Nevertheless, the Director is entirely correct in that a letter confirming our conversation should have been sent. It should have been done Aimmediately following my discussion with Olney in order to state in writing what we wanted. I regret that this was not done and I have no excuse to effer. SUBJECT:

Hon. Gandy Re attached memorandum dated June 13, 1955, on which you noted that you desired an explanation as to why it took so long to handle the request of San Juan for authority to advise informant's employer of informant's connection with the Bureau.

The incoming radiogram, dated June 7, 1955, was received by the Supervisor on June 8, 1955, and request was immediately made for informant's file and a search begun on the name of informant's employer for derogatory information. File received and review of references on informant's employer was completed on June 9, 1955, and memorandum, with outgoing radiogram, was dictated and dated June 9th.

The memorandum was returned on the late afternoon of June 9, 1955, with suggested change, which necessitated retyping one page. Due to mail dead line, memorandum and outgoing were changed to June 10, 1955, and sent through the Division that day.

On Friday, June 10, 1955, approximately 5.00 P.M., memorandum was returned from your office with a note stating that the synopsis should contain all necessary information on which action is to be taken and the recommendation is to follow the synopsis. This change required rewriting the memorandum completely, and inasmuch as it was not indicated that this was a matter of immediate urgency, the change was made first thing Monday morning, June 13, 1955. Action radiogram was redated June 13th and both were sent through channels on June 13, 1955.

RECOMMENDATION

This memorandum is submitted in accordance with your request and no administrative action is recommended.

SUBJECT:

THE MUSLIM CULT OF ISLAM CENTRAL RESEARCH MATTER

Reference is made to the memorandum from W. C. Sullivan to Mr. A. H. Belmont dated June 6, 1955, in the captioned matter, which included thereon the notations of Mr. Tolson and the Director requesting an explanation for the delay in this matter. Mr. Tolson noted that the memorandum and SAC letter were dated June 6.

Material regarding the captioned matter, which included a ninety-page monograph, in SAC letter and a cover memorandum, was received for reading and approval m. Belmont's office at 2:07 p.m., Monday, June 6. Due to the necessity or the handling of duties requiring more expeditious execution, including the approval of three monographs relating to surveillances. Mr. Cleveland did not have the opportunity to read this matter prior to the time that it was necessary for him to substitute at Mr. Hennrich's desk for a period starting in the middle of the week. During the latter portion of the week which began June 6, was necessary for Mr. Hennrich to attend to matters at Mr. Belmont's desk. Mr. Belmont was almost completely involved in "Operation Alert" and other matters which required his constant attention. While substituting for Mr. Belmont, Mr. Hennrich read and approved this material for Mr. Belmont. The material was then forwarded to Mr. Boardman's office, being received there at 2:53 p.m., Saturday, June 11. Later that afteragon (June 11), it was referred back to Mr. Belmont's office for his personal review and approval. During the succeeding period, it appeared that Mr. Belmont would not have the opportunity to personally read and approve this majorial in the immediate future because of priority duties involving the preparation of everuation plans to be executed that week. As a result of this situation, Mr. Heanrick telephonically advised Mr. Boardman's office that additional delay might be enternatered if in this instance the personal approval of ME Belmont was Boardman's office granted an exception in this instance to expedite the handling of the above matter. It was received back in Mr. Boardman's office at 9:23 a.m., Tuesday, June 12 RWS: mar good 54.27 RECORDE

1 - Section tickler

The menograph was read and approved by Scatterday on June 14, 1955, and forwarded to Mr. Boardman who read it and approved it, thereafter forwarding it to Mr. Tolson's Office, where it was received at 9:54 A.M., June 15, 1955.

Inspector Sixoo advised this monograph was in Mr. Tolson's office three work days which coincided with "Operation Alert"; that he was aware this was the first effort on the part of the analyst who prepared it; that he started reading it at home late Wednesday evening (6-15-55) and noting changes considered desirable on page two of the introductory material, felt he should take the necessary time to read it carefully; that with the press of more urgent mail during the period he did not get to it until the week-end, returning it to Scatterday shortly after 9:00 A.M., Monday, June 20, 1955, for suggested changes. He states he will see that such monographs are handled more currently in the future.

Scatterday forwarded the monograph to Inspector Sullivan in whose section it had been prepared with the request that the changes desired by Mr. Sizoo be made. It was received by Sullivan at 10:24 A.M. on June 20, 1955. It was returned by Sullivan to Mr. Tolson's Office at 9:15 A.M., June 21, 1955.

RECOMMENDATION:

This memorandum be referred to Mr. Tolson and to the Director for their information.

Belmont will make every effort to read these briefs promptly in the future.

ADDENDUM: 6-29-55 (LVB:WMJ)

Dear Mr. Belmont:

I am greatly concerned over the fact that you and several of your subordinates have failed to comply with Bureau regulations regarding participation in scheduled firearms training during the fiscal year 1955. Bureau instructions require each investigative employee to participate in four outdoor firearms training periods each fiscal year, two in the first half of the fiscal year and two in the latter half. I have noted that you and a number of investigative employees under your supervision failed to participate in such training periods during the latter half of the fiscal year 1955.

As Assistant Director of the Domestic Intelligence Division it is your responsibility to set an example for your subordinates. Therefore, I must insist that you arrange your work in such a manner as to enable you to participate fully in outdoor firearms training and to see to it that your subordinates do likewise.

Dear Mr. Belmont:

I have given careful consideration to the facts relating to the handling by you and personnel under your supervision of certain information pertaining to Nancy Anne Haycock received during May, 1955, from another Government agency. I have observed that you discussed this material with an agent under your supervision and it is evident that you did not exercise sufficient initiative to secure all of the facts regarding the FBI handling of this matter and regarding criticism expressed by this other agency.

Furthermore, the agent who received this material in the first instance served under your supervision and acted most improperly in failing to immediately record on May 6, 1955, the receipt of certain documents from this other agency relating to Haycock. In addition, another supervisor of the Domestic Intelligence Division prepared a memorandum and a proposed letter to this agency in early July, 1955, although he did not clearly present for the information of Bureau officials all of the pertinent data of a critical nature regarding the Bureau.

I am deeply concerned over the loose administration of the Domestic Intelligence Division as evidenced by the handling of this matter. Accordingly, you are being continued on probation. I must insist that you immediately take appropriate steps to tighten up your administration of the Domestic Intelligence Division and to insure that there is no recurrence of such laxity on your part or on the part of your subordinates.

SUBJECT:

ALAN H. BELMONT ASSISTANT DIRECTOR DOMESTIC INTELLIGENCE DIVISION ON PROBATION

> b6 b7C

BACKGROUND:

My memorandum of 7/19/55, analyzed the [Loyalty investigation and pointed out that the Army, contrary to the Delimitations Agreement, investigated this matter during 1948 and part of 1949; case turned over to FBI 6/30/49; results disseminated 10/28/49. Army Security Review Board and Attorney Advisor to Army Security Hearing Board, offered criticism of investigation; Liaison Agent John F. Sullivan 5/6/55. furnished by G-2 with analyses by Army Boards and Andrews; Sullivan in informal conversation in early May with Colonel Quinto of G-2, committed Bureau to no further investigation in response to an Army question as to whether FBI experts should evaluate the case further; Sullivan did not submit a memorandum on this matter until 6/30/55. No one at the Seat of Government set forth the full criticism for the Director's consideration until you initiated inquiry. Separate memoranda submitted concerning any desirable administrative action; this memorandum deals solely with captioned employee.

SPECIFIC CHARGES AGAINST ASSISTANT DIRECTOR BELMONT

As Assistant Director in charge of the Domestic Intelligence Division, of which the Espionage and Liaison Sections are part, Mr. Belmont has over-all responsibility for effective performance of all REDGLES 40

As reported in a separate memorandum, Liaison Agent John F. Sullivan acted improperly in that he failed to immediately record on May 6. 1955, receipt of pertinent information from G-2 ; a few days later, after causing concerning | this material to be examined by another Bureau Supervisors Sullivan provided informal comments to Colonel' Quinto 'of G-2.

These comments were in response to a question raised in Army documents relating to and the question was whether the matter should be evaluated by FBI experts well versed in Espionage. Sullivan advised G-2 in substance that the Bureau's position was unchanged from that reported to G-2 1/9/50. No Bureau official had an opportunity to clear or pass upon this matter prior to Sullivan's comments to Quinto, which bound the Bureau to a course of no further investigation. __ of the Domestic Intelligence Division. Supervisor | in preparing a proposed letter to the Army in early July, taking issue with an Army assertion that a letter of 7/1<u>2/50, had</u> been sent to the FBI inquiring as to the status of the investigation, mentioned the two major points of criticism by the Army Security Review Board, but did not clearly present all of the pertinent information of critical nature. Thus, Messrs. Boardman, Tolson and the Director were unaware of the extent and full nature of criticism by the Army Security Review Board and Army Attorney Advisor R. T. Andrews. b7C Belmont did not raise a question as to the extent of criticism by Army Security Review Board or Army Attorney R. T. Andrews even though he discussed this case with Supervisor Domestic Intelligence Division. Belmont exercised insufficient initiative in failing to secure all of the facts of FBI handling of the criticism expressed by the Army. He had available to him the same documentary material which was available to you and yet you detected The fact that weaknesses and criticism existed since Belmont had discussed this case with representatives of his division, his failure to detect and spread on the record the full facts is inexcusable. b6 b7C EVALUATION: Mr. Belmont is currently on Annual Leave. Explanations have not been obtained from him concerning this matter; however, it is obvious that there were deficiencies as to personnel in the Domestic Intelligence Division and as Division Head it is the responsibility of Mr. Belmont to appropriately train and arrange for the supervision of employees to prevent such deficiencies. Belmont was personally derelict in failing to question the extent of Army criticism and in failing to inquire as to the quality of FBI material. He kissed this matter off so that handling of the superiors with even less information than Belmont had available had

to launch questions of pertinence to the Bureau. He displayed

inexcusable lack of interest.

RECOMMENDATIONS:

1. Censure

Did not detect and record criticism of Army in documents made available to him; inadequate performance by employees under his general supervision.

2. No change in present probationary status.
